

# Lewis May Reveal New Pay Demands For Miners Today

By WILLIAM O. VARN  
WASHINGTON (AP) — John L. Lewis may give some indication today of what new work or pay benefits he wants for his 75,000 hard coal miners.

Representatives of Lewis' United Mine Workers and of the anthracite industry resume talks this afternoon on a new contract to replace one expiring Sept. 30.

Unless a new agreement is reached by the end of this month Lewis may call a strike of his hard coal diggers, as well as 400,000 soft coal miners.

**Industry Given Notice**

The UMW chief notified the industry more than a month ago that he would end the existing contract within 30 days. He also moved to clear the way legally for a strike by notifying the Federal Mediation and Conciliation Service that the contract may expire. This was to comply with provisions of the Taft-Hartley Act.

Thus far the union chief has given no indication publicly as to what he wants in the new anthracite and bituminous agreements. There have been reports that he plans to ask the operators for a shorter work week in order to spread work in the coal fields more evenly among the miners. Lack of

# Nixon Promises Fighting Drive For GOP Ticket

By ROBERT M. CROCKER  
ROCKLAND, Me. (AP) — Sen. Richard M. Nixon moves on through Maine today on a campaign kickoff tour, pledged to make "Communist subversion and corruption" in government "the theme of every speech from now until the election."

The Republican vice presidential candidate began last night in Bangor what he announced as "the most intensive campaign in the history of American politics."

As he spoke, Republican presidential nominee Dwight D. Eisenhower opened in Atlanta, Ga., what Nixon said would be a fighting campaign for election and a chance to clean up "the mess in Washington."

**Uses Chartered Plane**

Nixon, presented by a toastmaster as "the nemesis of Alger Hiss and other such miscreants," will wind up his second day of Maine campaigning with a Sanford address tonight. Before then, he will have spoken to Rockland and Auburn-Lewiston audiences. He is traveling by chartered plane.

"I had hoped, frankly," Nixon said, at Bangor, "that Communist subversion in the United States would not be an issue in the campaign. I had supposed we were all against communism."

"But Mr. Stevenson has raised the issue. He has made light of

# Eisenhower Draws Huge Crowds Down In Dixie

## Truman Likes Speeches; May Repeat In 1956

By ERNEST B. VACCARO  
WASHINGTON (AP) — President Truman looked forward eagerly today to his next "whistle stop" tour after his first strenuous, nine-speech, two-day stumping trip for Adlai Stevenson, whom he called a "wonderful candidate."

So enthusiastic was the President over his reception at rear platform talks in West Virginia yesterday that he assured crowds he is already thinking of campaigning for the Democrats again in 1956.

**Cost Worth While**

Truman's scheduled dedication of the Hungry Horse Dam in Western Montana Oct. 1 likely will turn into another, longer "give 'em hell" tour of the interior by train. And he is ready to keep his special train running after that right up until election time.

It's up to the Democratic National Committee to pick up the check, as it did on the Labor Day trip to Milwaukee, from which the President returned last night outwardly confident that the cost was worthwhile. The committee paid his transportation costs, including 10 first-class tickets for his bullet-proof private car and 30 minutes of radio network time.

**Opens Up On Ike**

Truman opened up on Gen. Dwight D. Eisenhower, the Republican presidential nominee, at Milwaukee he called him the "lonely, captive candidate" of GOP "special interests."

And at Parkersburg, W. Va., yesterday he called him a "spokesman for selfish politicians" willing to risk atomic war with Russia by loose talk about liberating the enslaved peoples of Eastern Europe.

Truman said one of Eisenhower's "masterminds"—aides said he referred to John Foster Dulles—"is perfectly willing to have the Republican party and the Republican candidate say things that increase the risk of war, simply in order to get votes."

The President called this "cruel, gutter politics."

## Stevenson Makes No Reply To Attacks On His Illinois Record

By RELMAN MORIN  
SPRINGFIELD, Ill. (AP) — Gov. Adlai Stevenson, drafting a major speech on farm policy, made no immediate reply today to a direct attack on his record in office in Illinois, and there were no indications that he planned an answer.

His strategy, a campaign lieutenant said, will be to ignore Republican accusations and concentrate on a series of "foundation speeches" to set forth his views on what he considers the major issues.

**Leads In Gambling**

Stevenson's assistants had no comment on a speech last night by Sen. Everett M. Dirksen of Illinois before the Federation of Illinois Women's Republican Clubs. The Republican senator, speaking within a stone's throw of the governor's office in Springfield, asserted:

"Illinois leads all the states in the union for the gambling racket. When it comes to cleaning up corruption, I'm not very much impressed by Stevenson's record."

It was the most concerted attack to be leveled at Stevenson since

CAP FROM KANSAS — Gen. Dwight D. Eisenhower tries on convention cap given to him by Kansas delegation before speaking at the Convention of Letter Carriers in New York. ## Boom For GOP Nominee Hints Break In South

By DON WHITEHEAD  
MIAMI, Fla. (AP) — Dwight D. Eisenhower's sweep across Dixie was booming in such spectacular fashion today that it posed the question of just how solid the Democratic South will be in the November election.

The GOP presidential nominee was drawing huge crowds at every stop along his campaign route. But none could say whether it was due to personal charm or political appeal — or a combination of the two.

**Thousands Cheer**

About 150,000 persons turned out to greet Eisenhower yesterday in Atlanta, Ga., Jacksonville, Fla., and here in Miami.

There were prospects of more big turnouts today in Tampa, Fla., Birmingham, Ala., and Little Rock, Ark. — the last stops on his two-day, 3,400-mile journey from New York through the South.

The thousands who heard Eisenhower speak burst into cheers and rebel yells when he accused the Truman administration of trying to cover up a "mess" of crime and corruption.

They cheered when he called for "common woodshed honesty" in government, and deplored the "whole sordid story" of corruption in the Bureau of Internal Revenue.

**Listeners Like It**

They applauded heavily when he said it wasn't enough to "change a face or two" in the administration and that: "No change of

# Prominent Engineer Doesn't Think Russia Has Any Atom Bombs

By ALTON L. BLAKESLEE  
Associated Press Science Editor  
CHICAGO (AP) — I don't believe Russia has one single atom bomb," Carlton S. Proctor, prominent New York engineer who has worked in Russia, declared today.

"I think every one of the atomic explosions in Russia was just a premature explosion, in an effort to produce a bomb."

Proctor is president of the American Society of Civil Engineers, one of 64 engineering societies celebrating a Centennial of Engineering opening here today.

**Don't Trust Each Other**

He gave his views on Russia during an interview telling of U. S. engineers' vast accomplishments in the last 100 years.

"The White House has announced three atomic explosions in Russia, referring to the second one as 'another atomic bomb,' without amplifying further. Other sources have estimated Russia has a stockpile of 100 or many more A-bombs by now."

Proctor declares it takes teamwork and co-operation to make an A-bomb work, and that Russians don't trust each other.

Such co-operation, he said, "is essentially impossible in Russia or any other totalitarian state. There is no possibility of one man trusting another and integrating his efforts with any other man."

**Bluffed And Fooled**

"There is no reward for co-operation. The only reward is for exposing someone, even in your own family. Any combination of effort comes under suspicion as a combination against the dictatorship."

In 1930, Proctor worked on building

# Louisiana Longs Make Comeback

By ROY STEINFORT  
NEW ORLEANS (AP) — Dr. George S. Long was more than 6,500 votes ahead today in his bid to become the fourth member of Louisiana's Long dynasty to sit in Congress.

The 68-year-old dentist, lawyer, and patent medicine manufacturer, said he had no doubt about the outcome of yesterday's 8th Congressional District race with Mayor Carl B. Close of Alexandria.

Dr. Long said he considered his victory over the 45-year-old mayor "as representing a comeback of the Longs in Louisiana."

Returns from 202 of the district's 346 precincts gave Long 21,975 votes and Close 15,427. The uncounted rural areas were considered Long strongholds by political observers.

Brother Earl Long could not succeed himself as governor this year, and his handpicked successor, Carlos Spahn of Baton Rouge, was overwhelmingly defeated by Robert Kennon.

The former governor campaigned for his brother this time, although twice before he had worked against him in congressional races.

Nephew Russell Long is Louisiana's junior senator. Russell is the son of the late Huey P. Long, who was slain 17 years ago next Monday in the State Capitol at Baton Rouge.

Huey's widow, Mrs. Rose Long, was appointed to fill his term in the U. S. Senate.

## Gov. Williams Maps Stumping Tour Into Peninsula Sept. 16

YPSILANTI, Mich. (AP) — Governor Williams last night kicked off his reelection campaign here and then prepared for his first campaign swing of the season.

Williams will hit 19 communities in a four-day tour of the Upper Peninsula starting Sept. 16.

**Program Defended**

In his opening tour last night, the Governor lashed his Republican opponent, Secretary of State Fred M. Alger Jr., for boasting he had helped "frustrate" the Democrats' program. This program, Williams said, is desired by the people. He said:

"We are building our people's health by expanding our medical schools to provide more doctors and by a great program of community hospital construction, x x x."

"New highways, airports and a bridge across the Straits of Mackinac are being planned or constructed."

"We are rebuilding our natural resources by speeding reforestation, cleaning up our lakes and streams and developing our mineral reserves."

**Baby Depressions Halted**

New laws have been adopted to build our defenses against sex criminals, the narcotics evil, communist subversion, gambling rackets and other types of crime.

"We are building our colleges and our great universities to overcome the damage done by republican neglect, and to meet the needs of tomorrow."

"Enlisting the help of business, itself, we have turned back two 'baby depressions' and put our people back to work. We are building Michigan industry by bringing new factories into the state, finding new markets for Michigan products and channeling defense contracts into Michigan plants."

"We have protected consumers

## Ohio Criminals Escape In Bluff

LIMA, O. (AP) — A search was underway over a wide area today for three inmates of the Lima State Hospital for the Criminal Insane who used two hostages to bluff their way to freedom last night.

Hospital officials said the three were John T. O'Bant, 51, of South Bend, Ind., a forger; John Auld, 33, of Toledo, O., a robber and Michael Chepak, 33, of Youngstown, O., a burglar.

Dr. R. E. Bushong, superintendent of the hospital, said all three men were "fairly dangerous."

He said the convicts seized Peter Sellers, an attendant, and forced him to open a cabinet in the barber shop where they armed themselves with straight edge razors. They then seized Miss Icie Keating, a nurse in a nearby ward.

Threatening to harm the two hostages, they bluffed guards to let them out of the building and out of the hospital gate. Once outside they released the two hostages and fled.

## Ionia Fugitive Killers Hunted

DETROIT (AP) — A nationwide hunt was on today for two Ionia reformatory fugitives accused of shooting to death a father and son in a suburban Hazel Park tavern Aug. 18.

Police said a 16-year-old girl friend put the finger on Harold Hummel, 21, Detroit, and Mike Gzondzi, 23, Pontiac, who escaped from the reformatory July 21. They were serving terms for robbery.

Oakland County Prosecutor James Hartrick obtained murder warrants for the youths yesterday on the basis of information supplied by the girl.

Police said the girl linked the youths with the killing of Joseph Vinokurov, 31, co-owner of the tavern, and his father Vidos, 60. A motive for the killings has not been established although it was believed to have been robbery. No loot was taken.

## Tied Up Truce Talks Resumed

MUNSAN, Korea (AP) — The deadlocked Korean truce talks resume tomorrow, ending the fifth straight week-long recess.

The U. N. and Communist armistice delegations have met only once a week since July 26. A sixth recess may be called tomorrow when the negotiators gather at Panmunjom at 11 a.m. (9 p.m., Wednesday, EST).

A major shift in the Red stand on the war prisoner exchange seems needed before truce teams can make any progress.

For months both sides have refused to budge from their widely divergent stands on that stumbling block.

North Korean Gen. Namil, spokesman for the Red delegation, demands return of 116,000 Communist prisoners, including all 20,000 Chinese captives in Allied stockades.

Maj. Gen. William K. Harrison, top man on the U. N. truce team, offered to send back 83,000 prisoners including 6,400 Chinese. An exhaustive screening of Communist captives showed the remaining thousands of prisoners have renounced communism. They declared they would fight — even to death — all efforts to push them back across the line. The U. N. Command staunchly refuses to force back any prisoner against his will.

## Child Stabber Is Mental Case

WINSTON - SALEM, N. C. (AP) — Dr. Norma Holt, the woman doctor who two weeks ago stabbed three of her children with steak knives, one fatally, and then tried to take her own life, has been committed to the State Hospital at Raleigh.

A Forsyth County Superior Court jury yesterday found her mentally incompetent to stand trial for the Aug. 21 murder of her 3-year-old daughter Vickie.

Four psychiatrists testified that the 27-year-old pediatrician, wife of Dr. L. Byerly Holt, prominent eye specialist here, is "completely incompetent by reason of insanity."

Police said the other two children involved in the tragedy, Larry 9 months, and Anne, 4, have recovered from their wounds and are now living with relatives in Texas. Dr. Holt tried to kill herself after the stabblings with an overdose of sleeping powders.

The murder indictment brought by a grand jury is not nullified by the court's action, officials said. She must face trial if and when she is found mentally competent.

## Miss Monroe Steals Spotlight From 52 Miss America Girls

ATLANTIC CITY, N. J. (AP) — Fifty-two Miss America beauties take over center stage tonight after playing wallflower roles to bosomy, blonde screen star Marilyn Monroe yesterday.

The pretty pretenders to the coveted crown compete for all-important points in preliminary beauty and talent contests in Convention Hall.

A third will appear in evening gowns, a third in bathing suits and the rest will show the judges they can do more than look lovely by singing, acting or dancing.

**Finals Saturday**

There will be more of the same tomorrow night and Friday night until each girl has had a chance to appear in all three contests. The finals will be held Saturday night.

The girls were introduced to a cheering crowd of 150,000 in a colorful parade along the boardwalk yesterday but Miss Monroe's face and fortune filled most of the camera lenses.

The shapely blonde languished atop an open convertible car as parade grand marshal in a scanty, form-fitting black affair that featured a plunging "V" cut to the waist.

**Photograph Banned**

Earlier in the day, Miss Monroe posed for a picture aimed at attracting recruits to the women's armed services in a low-necked polka dot dress.

## Miss America Girls

A few hours later, after Army officials got a look at the photograph, newspapers and wire services were asked to withhold it from publication.

Maj. Frank W. McWalters of the Air Force said Miss Monroe's pose was not in line with a program designed to convince parents the services are perfectly proper places for their daughters.

## Portugal To Expand Her Industrial Field

LISBON, Portugal (AP) — The Portuguese government announced last night a 13½ billion escudero (472½ million dollar) six-year development plan to help free the country from her age-long dependence on foreign producers.

The plan calls for expansion of existing industries and the development of new ones both at home and in Portugal's overseas territories.

## Convicted California Reds Get Out Of Jail

LOS ANGELES (AP) — Four more convicted California Communist party leaders were out of jail today.

They were released on appeal bonds of \$20,000 each yesterday. Similar bonds have been provided for 10 others convicted with them Aug. 7 of conspiracy to advocate violent overthrow of the government.

Freed yesterday were Philip M. Slim Connelly, editor of the Los Angeles edition of the People's World; Ernest Fox, San Francisco waterfront organizer for the party; Carl Lambert, San Francisco chairman of the party's security review commission, and Frank Spector, industrial division organizer for the party in Los Angeles County.

## Caudle Gives House Quizzers More Data

By KARL R. BAUMAN  
WASHINGTON (AP) — T. Lamar Caudle proved to be such an interesting witness at a closed-door hearing yesterday that a House investigating committee chairman remarked after it was over that his group "has a lot more work than we thought we had."

"We've got a terrific September ahead of us," added Rep. Chelf (D-Ky.) after listening to Caudle for more than five hours. Then he expressed doubt his judiciary subcommittee, which has been investigating the Justice Department, will be able to finish its work by Oct. 1 as planned.

Caudle, who was the government's chief tax prosecutor until President Truman fired him from his job as assistant attorney general last November, provided some information that was brand new to them, Chelf said.

The chairman said the discussion covered "a lot of cases and a lot of things."

## Economic Stabilizer Blames Plain Fear For Most Inflation

PHILADELPHIA (AP) — "Just plain fear" has caused more inflation than anything else, according to Roger L. Putnam, administrator of the Economic Stabilization Agency.

In an address before the 22nd annual CIO International Oil Workers Union Convention yesterday, Putnam said "scare buying" after the start of the Korean War pushed prices up.

But in the 18 months since price controls have been in effect, he added, the cost of living "has risen only about one-quarter of 1 per cent a month, instead of at the rate of 1 per cent a month as it was doing before."

## Atlantic Whipped Up By Second Hurricane

MIAMI, Fla. (AP) — The second hurricane of the season lashed the Atlantic early today about 725 miles due east of Nassau in the Bahamas.

The storm's vicious winds, estimated at 115 miles an hour, were expected to increase their speed during the day.

Little change, however, was looked for in its northwesterly or west-northwesterly course or in its forward movement of about 12 miles an hour.

## Government Builds Up Detroit Arsenal

WASHINGTON (AP) — The Defense Department has announced it will spend nearly \$2,500,000 on projects at the Detroit Arsenal and at Ft. Custer between now and June 30.

At the arsenal, \$2,370,000 has been earmarked for a laboratory, warehouse and fire and security building. At Ft. Custer, \$115,000 will be spent on a shop, igloos and magazines.

## Plan To Finish Paving Of Scenic M-35 Next Year

When the current road improvement project is finished next summer on M-35 between Escanaba and Menominee, the bay-skiing highway will be "one of the finest scenic routes in the vacationland of Delta and Menominee counties."

By that time the 59-mile stretch along Green Bay will be completely paved according to a design of the state highway department to face-lift the tourist route.

Work on the huge road project was begun about two years ago with completion date of the final work set at July, 1953, according to H. A. McPherson, office engineer of the state highway department branch office here.

### Working On Shoulders

All paving is now completed in concrete ribbon from Cedar River to about ten miles from Menominee. Remaining work on the stretch is the preparation of the shoulders off the two-lane highway.

The Bacco Construction Company of Iron Mountain was contracted to lay the highway from Menominee county line and began some portions of the road two years ago.

Paving of the Delta county portion of the scenic highway is to be done by the C. G. Bridges Construction Company of Escanaba which is now land-clearing for a part of the relocated highway.

"Traffic is being maintained on the length of road," McPherson reported, "with one or two temporary roads laid for use while paving is done on the new road."

### Handle More Cars

"When the highway is completed it will take a great deal more traffic than old M-35 did,"

## Polio Peak Reached, Health Official Says

Three new cases of polio were reported from Gladstone late yesterday, but health officers here predict peak incidence of the disease has probably been reached. The new cases bring the Delta County total since August 6 to 15.

Two other Gladstone youngsters were examined by local physicians yesterday but were returned to their homes for observation.

The three who were taken to St. Luke hospital in Marquette yesterday were Fred Robinson, 9, son of Mr. and Mrs. Henry Robinson, North 15th street, Gladstone; William Peterson, 4, son of Mr. and Mrs. Eberhard Peterson, 1016 Minnesota avenue; and Wayne Young, 12, son of Mr. and Mrs. Lyle L. Young, 609 North 11th street.

One other case was reported earlier this week, that of Judy Bender, 4, daughter of Mr. and Mrs. Frank Bender of Soo Hill. The Bender child's temperature is back to normal, and physicians have reported to the family that there is no major paralysis. She also is a patient in the children's hospital in Marquette.

Peak incidence of polio in Upper Michigan in the current epidemic probably has been reached and a decline in number of cases may be anticipated, Dr. William C. Harrison, Delta-Menominee health director, said today.

In large epidemics or in large he anticipated.

One bridge is included in the construction, that a low-lying, steel railing overpass on the Cedar River.

"The road is being kept as close as possible to the shoreline of Green Bay to maintain advantage of the scenery," the engineer said.

The paving was progressing at a rate of about a mile a day until that work was recently completed in Menominee county.

## City Summer Recreation Program Comes To Close

Three phases of the Escanaba city recreation summer program ended over the Labor Day weekend after one of the most successful seasons in the department's history.

The municipal beach, city playgrounds and the baseball program officially closed for the year, Director Art Peterson announced.

The beach program again proved most popular with Escanaba area children and adults. Attendance of about 32,500 persons was equal to that of last year.

Youngsters took advantage of the full-scale program with 155 boys and girls over seven years of age enrolled in the beginners swimming course with 58 passing. In the intermediate course 21 enrolled with 13 passing. In the junior and senior life saving course there were 11 enrolled with eight passing the course.

### No Drownings

For the 11th consecutive year beach activities were conducted without serious mishap. Fifty-two assists were made by the lifeguard staff. The lifeguards, under the direction of Francis Lunenburg and William Hemes, were Warren Johnston, James Heiden, Jack Chriske, Fred Boddy and Paul Baldwin. All are qualified American Red Cross instructors and hold senior certificates.

Two playgrounds were open this year and as in the past attendance was good. Royce Park playground operated on a full time basis and Webster was open part time.

Miss Patricia Frasher was in charge of Royce Park playground at which a varied program was offered. Arts and craft, including moulding, wood, paper, cloth and tin craft, and many other activities, were extremely popular with the youngsters.

Among the game activities were horseshoe, shuffleboard, tennis, basketball and croquet. Other low organization games were also conducted for younger children.

### 200 At Party

Playground equipment drew a heavy play from the youngsters and several treasure hunts were held along with parties for the children. The annual playground party

## Press Carriers To Get Special Newsboy Cachets

For the benefit of its 93 newspaperboys, the Escanaba Daily Press will participate in an anticipated record mailing October 4 when the U. S. Post Office issues a commemorative stamp in recognition of the faithful services of American newspaperboys.

### Daily Press Wins Merit Certificate

The Escanaba Daily Press has been awarded a certificate of merit by the Newspaper Advertising Executives Association for an exhibit of contemporary newspaper advertising at the NAEA 1952 summer convention in Daytona Beach, Fla.

In announcing the award, James J. Burnett, exhibits chairman, said: "We hope it will find a prominent place in your office signifying that yours is a progressive, alert organization."

Herbert G. Wyman, advertising director of the Post-Gazette, Pittsburgh, Pa., is president of the Newspaper Advertising Executives Association.

### Hospital

Clifford Chroge of Groos was admitted to St. Francis Hospital last night for surgery.

Special letters of congratulations in colorful covers posted from Philadelphia with the distinctive commemorative carrier stamp will be mailed to the Escanaba Daily Press newspaperboys.

The official first day cover contains a picture of a newspaperboy making deliveries in a typical American community. It is inscribed as follows:

**Devotion To Duty**  
"Honoring America's Newspaperboys for their faithful service to the public and their country and for their devotion to the task of preparing themselves to be useful, responsible citizens."

Press carriers in the following communities will receive this valued cover and souvenir: Escanaba, Gladstone, Manistique, Rock, Perkins, Carroll's Corners, Flat Rock, Groos, Soo Hill, Nahma, Rapid River, Bay View, Ford River, Cooks, Kipling, Trenary, Spalding, Powers, Bark River, Breezy Point, Thompson, Garden, Schaffer, Five Corners and Hermansville.

The mailing is expected to exceed the record 440,000 first issue covers from Baltimore on the occasion of the 125th anniversary of the Baltimore & Ohio Railroad last February 28.

Currently, the Escanaba Daily Press is being sent every day except Sunday into more than

10,200 homes. Of this number, 7,884 copies are delivered to the homes by the Press' 93 carrier boys, 4,116 in Escanaba and 3,768 in Gladstone, Manistique and other communities in the circulation area.

**Collectors' Items**  
Letters of congratulations to the Press newspaperboys will be written by Duncan Cameron, Press circulation manager. This is part of a "package" plan devised by the International Circulation Manager Association's special stamp committee headed by Howard W. Stodghill, a director of the Philadelphia Bulletin.

The committee will handle at cost the details of buying and affixing the stamps, supplying the envelopes and mailing them from Philadelphia. Covers to the Escanaba Daily Press carriers will be addressed here and the message will be inserted here before being returned to the committee in Philadelphia.

"The covers or cachets, as they are called, are collectors' items and have much more value than just plain uncancelled stamp or one cancelled on a date other than the first day of issue," Cameron explained.

Philadelphia was selected as the city of issue because Benjamin Franklin is credited with being the earliest newspaperboy of record. An initial printing of 110,000 newspaper stamps has been ordered.

## Course Offered For Teachers

Principles and Practices of Vocational Education, will be offered to the teachers off the Upper Peninsula this fall by the School of Education of the University of Michigan in cooperation with the University Extension Service and Northern Michigan College of Education.

The course will give two hours of both graduate and undergraduate credit.

The course is designed so that all school personnel should profit from the experiences of the course. School administrators, those who expect to enter the administrative field, and co-ordinators of co-operative programs will find this course especially valuable in broadening and deepening their knowledge of this field and in helping them to develop a philosophy concerning vocational education, the university reported. Secondary and elementary teachers will find the course profitable, also, in that they will benefit by learning more about the field of vocational education and the part that it fills in the whole system of education.

Classes begin the week of September 8 and end the week of November 17th. In each of the five communities there will be ten class sessions of three hours each. They will be held in the following cities:

Sault Ste. Marie, Monday, Sept. 8. Junior High School.  
Negaunee, Tuesday, Sept. 9. High School (Room B2).  
Houghton, Wednesday, Sept. 10. High School (Room 235).  
Ironwood, Thursday, Sept. 11. High School (Library).  
Escanaba, Friday, Sept. 12. Junior High School (Library) 6:30-9:30 EST. For further details write to the University of Michigan Extension Service, Upper Peninsula Office, Escanaba Junior High School, Escanaba, Michigan.

## Name Meanings Told To Rotary

A man's good name is his most precious possession, John A. Lemmer told the Escanaba Rotary Club in meeting yesterday noon at the Delta Hotel.

"It is harder to get than money and immeasurably easier to lose. Once lost it is almost never found again."

Behind the name of each person is an interesting history, for first names and surnames (or family names) are variously derived according to custom and country, Lemmer explained.

"Last names are really comparatively new, since they were used in the south of England for the first time at the beginning of the Twelfth Century when the nobility made use of them. It is said that in parts of Wales and Scotland surnames do not exist even today."

### Custom of Names

The use of family names became compulsory in Turkey as recently as 20 years ago, Lemmer explained. And if the family could not select a name—the government assigned one and assessed a fine.

Surnames were used earlier in France than elsewhere. In Arabia, reversing the usual custom, fathers are named for their sons. American Indians arrived at their permanent names only until an act of bravery or skill was performed.

"It is generally known that Smith is the most common English name," Lemmer said. "That is because the men who were the blacksmith and the goldsmith and the locksmith and the silversmith all were known as Smith by the job they held. The second most common English name is Taylor, again a name after an occupation."

### Each Is Important

The names Wood and Green derived from the location of the family near the village green or woods.

Many family names of Scandinavian people describe the original location of the family on the

shore, or by the lake or stream; the Japanese often use numbers for names, the belief being that round numbers bring good luck; and American Negroes did not possess second names until after the Civil War.

Names are important to the individual owning them, to business and industry concerned with the good reputation of their product, Lemmer pointed out.

There are many types of insurance that will protect against losses—but there is no insurance except individual honesty and integrity to protect one's good name, he concluded.

## U-M Clubs Will Meet At Blaney

The Eleventh District of the University of Michigan Clubs will hold its 28th Annual Conference at Blaney Park on September 5th and 6th, 1952. The Schoolcraft County University of Michigan Club will be host to this year's conference.

On the agenda for Friday is an informal get-together (golf-sight-seeing-hiking, swimming, etc.). A cocktail hour will precede an informal dinner in the evening, after which the nominating committee will meet.

Saturday's schedule begins at 10:00 a. m., with introduction of delegates. There will be reports by the officers and an election of officers for the ensuing year will be held. The presiding officers of the 11th District are: district director, Attorney Aaron Lowenstein of Negaunee; president, Miss Isabel Fisher of Calumet; vice-president, Roy A. Ahonen of Ironwood; vice-president, Attorney James Fitzharris of Escanaba, vice president, John F. MacDonald of Sault Ste. Marie, secretary-treasurer, Dr. C. A. Cooper of Stambaugh.

Robert Morgan, of Ann Arbor, field representative for the University of Michigan Alumni Association, will be present to conduct a club workshop. On Saturday evening a dinner, followed by a typical gala Michigan evening will conclude the conference.

Reservations should be made direct with Blaney Park Resort.

## Rained Out, Kiwanis Club Picnics Indoors

A sudden shower just before 6 p. m. Tuesday forced the Escanaba Kiwanis club to change plans for their annual picnic supper at Ludington park, and the event was held inside instead, with a buffet supper at the House of Ludington.

John J. Bartella was picnic chairman and acted as master of ceremonies for an impromptu

story-telling program which was climaxed by an exhibition of magic and card tricks presented by Jesse Pomazal.

Next Monday the Kiwanis club will meet jointly with the Rotary club.

### Truman's 'Give 'em Hell' Plugs Campaign For Captive Stevenson

PRESIDENT Truman apparently believes that Gov. Adlai Stevenson is incapable of giving the Republicans what he thinks they should have—or as he calls it "give 'em hell."

Whether Gov. Stevenson desires to deal in that school of campaign oratory is immaterial. He is Harry's boy—and Harry is speaking for him.

The only way that Gov. Stevenson could not be held responsible for the statements

of President Truman is for the presidential candidate to repudiate Truman. That he will not do this is a foregone conclusion. The two are a combination act playing the campaign circuit from now to Nov. 4.

It is Truman's political philosophy that the voters like (as he fondly describes himself) a "fighter."

Stevenson is by nature averse to the Truman type of full-blown brawling in the political arena. He is more given to verbal finesse and the colorful metaphor.

In Milwaukee on the first of his "whistle stop" appearances Truman described Gen. Dwight D. Eisenhower as "captive candidate" of a Republican party that is "still the party of special interests, still the errand boy of the big lobbies, still the ones who want to exploit labor and the farmers and the consumers."

The inconsistency of the statement must have made Gov. Stevenson, Truman's running mate, wince in distress.

The reactionary and isolationist faction in the Republican party did not want Eisenhower. Some of them, typified by Col. McCormick who places isolationism above Republicanism, would rule him out of the Republican party even now if it were possible.

Gen. Eisenhower is not a "captive candidate" and his statements prove it. He is known by his enemies as well as his friends. No one speaks for him. He speaks for himself.

Unlike Gov. Stevenson, Gen. Eisenhower has no influential party politician, schooled for many years in the technique of rabble-raising and class-cleavage, to bring up big guns in his support. He has no President Truman to do the dirty fighting for him.

It is revealing that President Truman's familiar technique of accusation in generalities is needed to bolster Gov. Stevenson's campaign. And it proves to the satisfaction of those sufficiently independent in outlook that Gov. Stevenson is indeed captive to the entrenched and defensive Democratic administration.

The President's campaign of smear and vilification indicates his concern for what he considers the weakness of Gov. Stevenson, and explains his desperate efforts to outshine his party's presidential candidate.

Thoughtful and independent citizens may well ponder whether Stevenson is campaigning for Truman, or Truman for himself.

## Other Editorial Comments

### VISITOR—AND CONVOY (Christian Science Monitor)

In Sweden the police go unarmed, and members of the royal family move about freely without benefit of constant bodyguard. But United States law requires the assignment of Secret Service men to guard the President and his family at all times.

These two facts brought together, plus some tactlessness on one side and some overcautiousness on the other, may be all there is to the "incidents" allegedly caused by Margaret Truman's bodyguard during her Swedish visit. The Stockholm papers' description of her three Secret Service men as "tough" guys with their left arms bulging with artillery" who "roughed up" Swedish citizens seems, in the light of later denials and explanations, to be at least highly colored.

At the same time it shows the need for more careful American attention to European sensibilities. Hollywood gangster films have created for many Europeans a false stereotype of heavy-fisted American police methods—a stereotype which can too easily be read into any small display of officious zeal. Actually, Miss Truman's unassuming friendliness would seem to be all the protection she needs in so friendly and well-ordered a country as Sweden. Why three guards anyway?

Nature really is wonderful—except to the baldheaded man with wire-like whiskers.

## Merry-Go-Round

(While Drew Pearson is on a brief vacation, the Washington Merry-Go-Round is being written by several distinguished guest columnists, today's being Stanley Andrews, technical cooperation administrator in the Department of State.)

STANLEY ANDREWS

WASHINGTON—There are many weapons which the free world can use to fight Communist aggression—military, political and economic weapons. But I believe history may well demonstrate that the most effective weapon we have in the struggle against Communism is the point 4 program.

Like most things of fundamental greatness, point 4 is very simple. It helps people to help themselves—by teaching and sharing America's scientific knowledge and technical skills with the peoples of the underdeveloped areas of the world.

Point 4 is not a product of our defense effort and it is not a substitute for defense, but Point 4 is no less a source of strength for the free world.

Some of the countries with which the U. S. is cooperating through the Point 4 program lie directly in the path of Soviet expansion. In most of these underdeveloped areas the threat of Communism is not a military threat, and it cannot be met with military measures.

Guns are no defense against poverty, ignorance, and unrest. In the underdeveloped areas the only sure defense against the spread of Communism and other forms of tyranny is a powerful, concentrated attack on disease and hunger and their evil consequences.

Point 4 is our weapon for this attack.

### PEOPLE-TO-PEOPLE PROGRAM

Point 4 is a new kind of diplomacy. Point 4 diplomats are dungaree and blue jeans diplomats—teachers, health officers, engineers, farm demonstration agents who work directly with the people in the villages and on the farms.

Point 4 is a people-to-people program. U. S. technicians working with technicians of other countries are not concerned with political problems. In the midst of anti-U. S. disturbances in Iran, American and Iranian technicians continued to work side by side, trying to do a job that means more food, clean water, lower infant mortality, fewer deaths of mothers in childbirth.

Our work with the peoples of the Point 4 countries is very similar, in fact, to your own people-to-people efforts, Drew Pearson—the Friendship Train, the tide of toys, and the letter-writing campaign between the people of Italian descent in the United States and their relatives in Italy which helped swing the 1947 Italian elections for democracy.

Point 4 has been called idealistic. If Point 4 is idealism, it is hard-headed, practical idealism. There are sound economic reasons behind Point 4. Rising national income, more productive agriculture, and greater industrial activity make other nations better customers for United States products and commodities. They create markets for American businessmen and jobs for American workers.

Beyond self-interest, the motives for Point 4 are embedded deeply in our American democratic tradition.

The peoples of the underdeveloped areas of the world—in Asia, Africa, the Middle East, Latin America—are awakening after centuries of impotence and subjection to outside domination. In the 18th century they were largely passed over by the industrial revolution and the political revolutions of France and America. Even the most commonplace measures we take for their health and sanitation are unknown to millions of them. Hundreds of millions cannot read or write and have never known the use of the ballot.

The billion human souls in these underdeveloped areas are waking up to the potentialities of life in the 20th century. Many of them have recently gained national independence. They are learning that hunger, disease and ignorance need not be their everlasting heritage.

It is in the tradition and the history of America that we help them. Point 4 is the vehicle on which scientific knowledge, technical inventions and material progress become traveling companions with our ideals, our hopes and aspirations for achieving real brotherhood among men.

### ACCOMPLISHMENTS OF PROGRAM

What has Point 4 accomplished? More than 1,000 TCA technicians are overseas working with some 20,000 nationals in 35 countries. The native "counterparts" of our Point 4 workers are being taught the skills and knowledge of American technicians. For the basic principle of Point 4 is to train the peoples of the participating countries so that each country can take over its own programs.

For example, the Etawah agricultural project in India is now run entirely by Indians. In Liberia, Frank Pinder, an extension agent from Florida, has helped the Liberian farmers produce a cash crop by providing 24 cocoa seeds for two cents. Point 4 workers have reduced crop losses in Lebanon by showing the Lebanese citrus farmers modern ways of picking, shipping and marketing their crops. In Ecuador, Colombia and other Latin American countries health workers have almost eliminated the dread tropical disease yaws. A new disease-resistant rubber tree has been developed in Latin America. Malaria is being brought under control in the Near East.

## Psychologist Gives Hot Praise To Nation's Young Hot-Rodders

CHICAGO, Ill. —(NEA)— You may think that a "hot rod" is nothing more than an overgrown juvenile delinquent who should be barred from the streets and highways as a safety menace. But don't bet on it.

Actually, the much maligned young speed demon tends to be an uncommonly safe driver—and the evidence for that statement is a scientific study by Chicago psychologist Peter E. Seigle.

Seigle found that the hot rod driver is normally far less "accident-prone" than the average driver because his activities are channeled into constructive pursuits. He is thus less likely to suffer personality problems which lead to bad driving habits.

"The hot rod driver is in reality a force for safety," Seigle concludes, "because he better understands the limitations of his car and himself."

Seigle's findings are borne out by the experiences of several communities, notably Pomona, Calif., which have instituted hot rod safety programs. Hard hit by the "souped-up" auto craze, these cities found a solution to the traffic problem by setting up special "timing strips" where the youthful enthusiasts could carry on their activities in privacy and safety.

The results have been excellent. With the "timing strips" providing a safe outlet for their speeding tendencies, the hot rod drivers have become model motorists on the public streets and removing the primary objection to them.

On a larger scale, the National Hot Rod Association each year sponsors a National Speed Trial on the famous Utah Salt Flats. Attracting more than 700 entries from the U. S., Canada, Mexico, the Hawaiian Islands and

## Geography Teaching Is Neglected, Says Kohn

WASHINGTON—Gross neglect of geography today was charged to the American educational system by Dr. Clyde F. Kohn, at 41 president of the National Council of Geography Teachers and professor of geography at Northwestern University.

Public and private schools, colleges and universities are equally at fault, according to Dr. Kohn, who has been in Washington attending both the seventeenth International Geographical Congress and a conference of the teachers' group he heads.

"Some progress is being made, but not enough," he said.

"We are still in the age of grandfather's big geography book, which came in so handy for hiding a Horatio Alger novel from the teacher."

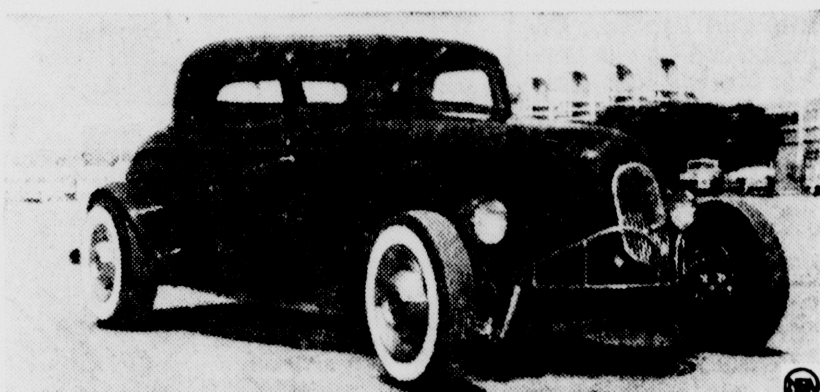

"The teaching of geography still stops with the sixth grade. I know of only a few instances where geography is part of a secondary school curriculum."

### No Geography Teachers

"On the higher education level, no major American university has a professor devoting his time entirely to the teaching of geography. This means we produce teachers who are not well trained in geography," Dr. Kohn ob-

COMPETITION COUPE built from a 1934 Ford starts off on "hot rod" speed trial. This car has made a top speed of 140 mph, but can't be driven on street because it has no transmission.

FATHER-SON TEAMWORK by Ike and Monte Trone of California did the face-lifting job on this 1934 Ford. It has all highway safety requirements, can be used on street or in speed trials.

Alaska, the seven-day festival of speed is the hot rod "World Series," and has a remarkable safety record.

The cars, with supercharged engines and special fuels developed by their drivers, attain speeds of more than 200 miles per hour.

Prizes to the top drivers include a \$1000 college scholarship and a large gold cup donated by Seigle's employer, Maremont Automotive Products, Inc. But they

are not awarded for speed alone. Also considered are safety of construction, excellence of workmanship and the driver's contribution to automotive engineering knowledge.

Experts are admittedly amazed at the mechanical skill common to hot rod enthusiasts and consider the movement a vast developer of prospective engineers. It should be encouraged as such, they say, to help alleviate the present engineering shortage.

One of the Society's several public service activities is a school service that furnishes the nation's teachers with up-to-date geographical aids, including pictures. "In our ignorance," said Dr. Kohn, "we Americans are apt to think of other people as just like ourselves. Nothing can correct this misconception, so prevalent among our youth, as well as actual pictures of other lands and their inhabitants."

Dr. Kohn said endowments for the teaching of geography are needed. But above all, there should be a change in the attitude toward geography taken by colleges and secondary schools, and by the governmental agencies which administer the educational system.

"Let them say, 'Geography will be taught in our schools as a national policy,'" he concluded, "and we will have taken a very great step forward."

Slanted by the swift current flowing east through the Straits of Florida, sea level on the north coast of Cuba is about 17 inches higher than at Key West. Yet they are less than 100 miles apart.

Mountain sheep may lie for hours in a Rocky Mountain snowdrift, but the pressed-down flakes do not melt. The animals' matted coat effectively stops escape of body heat, says the National Geographic Society.

## Good Evening...

By CLINT DUNATHAN

BACK TO WORK—We spent a rather quiet Labor Day weekend, doing some of the things we had looked forward to for some time—and being rained out in efforts to do more.

It is difficult to get back to the routine of work after leisurely picking blackberries. The season for wild berries began early this year, spurred by warm weather and plenty of rain. The blackberries were extra-special in size and flavor this year.

There is something particularly important about a blackberry pie. It has rich color, the aroma is redolent of ambrosia, and the flavor contains all of the wild sweetness of a northern climate.

You are no doubt fully aware by this time that we are fond of blackberry pie.

REGIONAL MATERIALS—This Upper Peninsula of ours has a number of native products besides blackberries that are worthy of note.

One of them is the native stone that is excellent for building material. Architects will tell you that it is possible to use materials native to the area, the building will have more character and beauty.

Over at Fairport on the Garden Peninsula the Gierke brothers, Howard and Sherman, have developed a quarry where native stone—limestone or dolomite—is being produced and sold.

The lasting quality of the material is evidenced in the old furnaces and stone buildings at Fayette, still standing strong after nearly a century.

INSIDE AND OUT—Chatting with Dale Vinette of Escanaba the other day we learned that Fairport stone is, in his opinion, equal if not superior to some other better-known building stone now on the market.

Dale should know, because he used stone from the Gierke quarry in his home at Escanaba. Built with timbered ceilings in early-American feeling, the house has stone for both exterior and interior walls, leaving an air space between.

Tests for strength and spalling revealed the Fairport stone both strong and tough, with certain characteristics Dale sought for his house.

Although it does not have a high color, the stone has varied shadings of pleasing gray and blue, Dale reports.

HOUSE IN CIRCLE—Perhaps Dale's interest in having a house that includes stone from the Garden Peninsula harks back to his boyhood days, when he and his chums spent summer vacations exploring the rocky coast from Garden to Fairport.

Another Escanaba man, Earl Kosbab, is constructing a house on Ford River a couple miles above the bay that will incorporate stone from the Fairport quarry.

Kosbab's house will be unique for another reason: It is circular. When completed it will be of most unusual style, and it will have a fine view overlooking the rushing river.

THE HELPING HANDS—Over at Hermansville there is a story of interest in a church congregation's hard work—an item connected with Labor Day and the use of a native and natural resource.

Young couples of the First Methodist church congregate pitched in and by their own work redecored the church parlors. The 22 young people put in 1,500 hours—an average of better than 60 hours each.

Now the congregation of the little church is out to raise \$5,000 to redecore the sanctuary, install new lights and a new furnace.

Two hundred and thirty-three letters were sent to former residents and friends of the church in the appeal for funds. Someone who received a letter was more than ordinarily interested, for the Detroit Free Press recently reported the project, according to Mrs. John R. Duca Jr., president of the church's Women's Society for Christian Service.

## The Doctor Says... Any Change in Breasts' Shape Is Cause to Search for Cancer

By EDWIN P. JORDAN, M. D. — Written for NEA Service

The most common location for cancer is the female breast. Rare before the age of 25, cancer of the breast increases in frequency as the years go by. Every woman should know that if cancer of the breast is discovered early enough, the chances of complete cure are excellent.

Consequently it is now believed that women should be taught to examine their own breasts, and if anything abnormal is found, to seek professional assistance at once. The more this is done, the more rapidly will real progress be made toward the control of the disease.

The symptoms are important, because they lead to that early diagnosis which is so important. A lump in the breast calls for immediate investigation.

Some people mistakenly believe that cancer of the breast cannot be present unless the nipples are pulled in or actually inverted. It is true that this may be symptom (although generally a late one), but it is also true that the nipples can be turned inward from causes other than cancer.

More important than turning in of the nipples is a flattening of some portion of the breast. Any change in the shape of the breast which has not been present

before is suspicious. Also, any discharge or secretion from the nipple should be cause for prompt study. Pain, burning and other sensations are rare in the early stages of cancer.

Once a lump or suspicious area of the breast has been found, proper treatment involves prompt surgery with the removal of some of the tissue from the lump and its examination under the microscope.

### PROMPT ACTION SAVES GRIEF

This tissue can be frozen, stained and examined almost at once, so that if cancer cells are found the entire tumor and surrounding breast tissue can be removed without further delay. The longer the cancer has been present, the more danger there is that it will recur.

The most important thing to remember is that any change in the appearance of the breast should be promptly recognized and expert opinion sought at once.

Those who delay treatment because of fear that cancer may be found are extremely short-sighted, because it is in early stages that complete cure is possible. In this form of cancer in particular a little more knowledge and prompt action can save untold grief.

# Come Ona My House Ends Grape Career

By BOB THOMAS

HOLLYWOOD (AP)—What a difference a hit song makes.

At least it changed the life of Ross Bagdasarian. He's the guy who was responsible for "Come Ona My House," which was driving the nation buggy a year ago. Yes, his cousin, William Saroyan, also got credit for the composition, but his contribution was reportedly slight.

Anyway, the song completely altered the life of Bagdasarian, whose career had long wavered between show business and grapes.

Ross—let's call him by his easier first name—is a member of that tribe of Americans of Armenian ancestry who have settled in the warm San Joaquin Valley, principally around Fresno. He is a happy extrovert, full of the joy of living. He might have stepped out of a Saroyan play, which indeed he has.

## Then Came War

The lad abandoned the family trade—grapes—to follow his famous cousin. Ross appeared in two Saroyan plays on Broadway: "Time of Your Life," in which he played the pin-ball maniac, and "Love's Old Sweet Song," with Walter Huston. Then came the war.

"After I got out of the service, I decided I would settle down in Fresno and raise grapes," he related. "It so happened that my first crop came in the worst grape season in 32 years. I lost everything. So I decided to come to Hollywood. My wife now says, 'Thank heaven the grapes weren't good that year.'"

With a wife and two kids to support, Ross began pounding on music publishers' doors. He had written "Come Ona My House" 10 years before but had never been able to interest anyone in it. He still had no luck.

## Things Start Popping

"I tried it with nearly every singer," he said, "but they all turned it down. Peggy Lee and Dave Barbour said it was too late in the summer to put it out. Frankie Laine said dialect songs weren't interested."

Finally he sent a record of the song east with a friend, who was instructed to play it for Kay Ar-

man. Still nothing happened. Some time later he learned that Kay Arman had recorded the song, and so had a new singer named Rosemary Clooney, then things started popping.

"My luck changed," Ross said. "In the past year, I've had two hit songs (the other: 'What's the Use,' recorded by Johnny Ray) and acted in six pictures."

Ross, who is currently playing a land-locked sailor in "60 Saddles for Gobi," said the film roles resulted from his songwriting fame.

Although Ross is thriving in his present profession, he hasn't forgotten his old one. He manages to get the word "grape" into the lyrics of every song he writes.

## IQ Not Important

DALLAS (AP)—If you've got a low IQ and it's worrying you—don't let it.

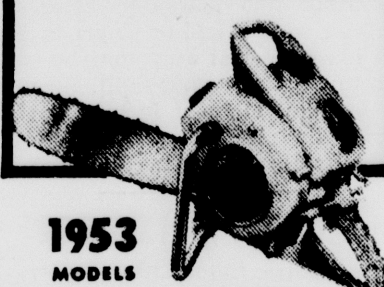

That's the advice of a Southern Methodist University psychology professor.

Dr. A. Q. Sartrain told a Dallas business club yesterday that:

1. Intelligence tests aren't always accurate, and
2. Their importance is probably exaggerated, anyhow.

Britain's schools of law, called the Inns of Court, were damaged in the great London Fire of 1666 and by bombs in World War II.

# City Acts To Provide Housing For Proposed Harnischfeger Plant

Acting in special session today noon the Escanaba City Council took action to provide space here for a proposed Harnischfeger Corporation machine tool manufacturing plant expected to employ 160 men.

Herman Menck, Milwaukee, Harnischfeger works manager, advised the city that plant space must be assured immediately so Harnischfeger can place its order for machines, said City Manager A. V. Aronson.

## Escanaba K Of C Installs Officers

A large group of members witnessed the installation of Knights of Columbus Council officers Tuesday evening at the K. of C. Club. Raul Bertrand, district deputy, and his staff from Manistiquic were in charge of the installation ceremony.

The following officers were installed: Grand Knight, Francis Rooney; Deputy Grand Knight, Chester Rice; Chancellor, Robert Finley; Recorder, Harold Kleiman; financial secretary, Harold Anderson; treasurer, Marland Moreau; lecturer, Harry Gagner; advocate, Ralph Finley; warden, Arthur Lauzon; inside guard, Henry Grenier; outside guard, Arthur Messier Jr.; trustees, Irvin Houle, Homer LaCasse, Lloyd Peltier. It was announced at the meeting that Right Rev. Monsignor Melican had been appointed Chaplain of the local Council.

Following the installation, a group of local Barbershop singers rendered an excellent program. Lunch and refreshments were served.

## Hunting Tags Out

LANSING (AP)—The Conservation Department today reported that 1952 hunting licenses are available at all of the 4,000 dealers throughout the state.

Mailing of 1,485,000 small game, big game and trapping licenses has been completed, the department said.

Many New Yorkers call the lower Hudson the North River without knowing just why. The name is a relic of Dutch colonial times when the Delaware, at the other end of New Netherlands, was the South River, says the National Geographic Society.

# Purdue Foundation Aids Wisconsin Central Line

Consummation of an agreement between the Purdue Research Foundation, of Lafayette, Indiana, and Wisconsin Central Airlines, involving a consideration of one million dollars (\$1,000,000), was revealed today in a joint announcement by Arthur E. Mueller, chairman of the board of directors of the air line, and Dr. R. B. Stewart, treasurer of the Foundation.

Under the terms of the unique contract, Purdue Research Foundation, a non-profit corporation affiliated with Purdue University, will provide funds to Wisconsin Central for the refinancing on more favorable terms of present obligations of the air line and to enhance the working capital of the company. In addition, the Foundation is to transfer to the air line a fleet of nine Douglas DC-3 aircraft which will be completely overhauled and modernized to specifications prescribed by Wisconsin Central.

"An aspect of the agreement of substantial importance to Purdue," said Dr. Stewart, "is that the entire Wisconsin Central operation throughout the states of Wisconsin, Minnesota, North Dakota and Michigan and into Chicago, Illinois, will become a field laboratory for the benefit of students of Purdue who are specializing in aeronautical training. On the other hand," Stewart said, "the air line will receive the benefits resulting from research and special studies in the field of scheduled air transportation performed by students and faculty members of the University. Here is an instance," he stated, "where industry and education combine for the common welfare."

## Plan Additional Flights

With the acquisition of these nine additional planes, Wisconsin Central will have the largest fleet of aircraft of any of the sixteen local service air lines certificated by the Civil Aeronautics Board for local passenger, air mail and air cargo service throughout the country.

Mr. Mueller, Wisconsin Central's board chairman, outlined that the aircraft acquired from Purdue would enable the company to inaugurate additional flights over presently operated routes, as well as to equip the carrier to provide new services over proposed new routes for which the carrier has previously filed applications with the Civil Aeronautics Board.

Only available city-owned building suitable is that now occupied by the Delta Furniture Manufacturing Company, 423 Stephenson, which recently ceased operations.

## Asked To Vacate

Present at the special meeting of the Council were representatives of the Escanaba Chamber of Commerce and its industrial committee, and H. P. Bourke, president of Delta Furniture Manufacturing Company.

"The Council should do what is best for the city," Bourke said after informing the Council that it might be a matter of about 60 days before his company completed processing of materials now on hand at its plant.

Council then unanimously adopted a motion notifying Delta Furniture Company that it considers the city's lease with the company breached and forfeited, and instructing the city attorney to take proper legal proceedings to have the property vacated at the earliest possible date.

The contract was considered forfeited by failure of Delta Furniture Company to meet in advance the rental payments of \$100 a month for the months of August and September. The contract stipulates monthly payments in advance.

To Work Two Shifts Delta Furniture Company was employing about 35 men prior to the halt in operations. The contract between the city and the company was made to cover a period from 1950 to 1956.

The city manager will notify Menck, Harnischfeger vice president and works manager, of the Council's action and the assurance that the building will be available to Harnischfeger for its proposed operations here.

Menck had previously advised the city that its proposed tool manufacturing plant would employ a total of 160 men, with two shifts of 80 men each.

The building to be vacated is located adjacent to Northern Motor Builders in the old Escanaba Woodenware site purchased by the city a number of years ago for industrial development.

Harnischfeger Corporation is already one of Escanaba's largest employers. It operates a crane plant west of the fair grounds and a welder plant on Stephenson Ave. near Northern Motor Builders.

## Boom For Ike May Indicate Break In 'Solid South'

(Continued from Page One)

goods in the showcase can make the rotten goods back in the warehouse any better."

And the harder he whiplashed the democratic leadership in Washington, the better his listeners seemed to like it, if their applause was any measure.

Eisenhower hammered at corruption in government on this first drive into the South and he made it clear he had crossed the Mason-Dixon Line with hopes the South would support him in November.

He wound up his first day's tour speaking to a record 12,000 or more persons at the bay front park last night, the largest crowd ever to hear any candidate speak in Miami. Other thousands had cheered him on his drive into the city and to Miami Beach.

"We Want Ike" The crowd was chanting "We want Ike" as he stepped onto a brilliantly lit platform and tore into the administration which in Jacksonville he had called a leadership of "stumble, fumble and fall."

He read from a prepared text in which he promised that in the days to come he would outline the policies he would follow on problems of peace, inflation, labor, agriculture and cleaning corruption from government.

Eisenhower praised Republican Sen. John J. Williams of Delaware as a man who has been chiefly responsible for exposing wrongdoing in government. He pointed particularly to cases in the Boston, St. Louis and San Francisco tax-collecting agencies.

The crowd gave him perhaps his heaviest applause when he said: "There can always be one rotten apple in a bushel and it might be nobody's fault. But I can promise you this: If I should ever find a rotten apple in any barrel given to my care, it won't take me 3 1/2 years to get rid of it."

Corruption Still Hidden And he added later: "I cannot tell you the whole extent of this corruption because there has been too much hiding and too little exposing by the responsible officials of government. . . . The American people have a right to know the answers and the only way they will ever find out the truth is to have an administration that will stop trying to cover up the mess."

And then he took an indirect slap at Democratic presidential nominee Adlai Stevenson by saying:

"No man, however honest, can clean up this mess if he is elected as the nominee of the administration which created the mess. No man can set out to restore honesty to government if he owes his election in any degree to those who have lost their sense of public morals."

## WELCOMED IN TAMPA

TAMPA, Fla. (AP)—Dwight D. Eisenhower appealed to the women of America today to throw themselves into the presidential campaign "to correct the things that are wrong with us."

The GOP presidential nominee's appeal to the women voters was made before a cheering crowd estimated at 9,000 gathered at the Tampa ball park.

Tampa followed the lead of Atlanta, Jacksonville and Miami in giving Eisenhower a rousing welcome on his sweep across Dixie that has been booming in such spectacular fashion.

"I am anxious to draw the spirit of women into the campaign I am trying to wage," Eisenhower said after he had been introduced by GOP National Committeewoman, Mrs. Helen Lieb.

Standing under a broiling sun on a bunting-draped platform at home plate, Eisenhower declared: "We must recall the spiritual and moral values of our forefathers" in government.

He said he referred to the situation in Washington as a "mess" because "that's what the opposition calls it."

"There is a difference between the two parties," Eisenhower said. "One is saddled with a mess. The other wants to clean it up."

## Pickets Storm U. S. Court In Chicago

CHICAGO (AP)—Police were alerted today for possible renewal of picketing of the U. S. Courthouse after a noisy demonstration yesterday by some 200 pickets.

The pickets, after parading in the streets, moved into the Courthouse and shouted derisive protests at a hearing by the House Un-American Activities Committee. The committee is investigating communism in defense industries.

The disorders, however, failed to interrupt the hearing at which a self-avowed former Communist testified. The witness, Lee Lundgren, 37, a field representative for the CIO International Union of Electrical Workers, named 47 persons as Communists.

the Communist threat. He has demonstrated a shocking lack of understanding of this deadly serious matter.

## Will Mention Names

"He has referred to it not as a 'red herring' but as a phantom in our midst."

"In August on Saturday night, I am going to talk about the Communist 'phantoms' and what they have done. I think you will be surprised."

Nixon told a press conference he would name names when and if it became necessary in discussing the administration's record. He said he does not believe Eisenhower will deal in names and especially will avoid direct references to Stevenson and Sparkman.

The 39-year-old Navy veteran told a cheering Bangor audience of 800 he will campaign on the record of the Truman administration.

"We can anticipate charges of smear, hatcheting and name-calling as we delve into the administration's sorry record," he said, "so let's get one thing straight right now:

"If the record itself smears, let it smear. If the dry rot of corruption and communism, which has eaten deep into our body politic during the past seven years, can only be chopped out with a hatchet—then let's call for a hatchet."

## Ex-King Farouk No Pauper Yet

CAIRO, Egypt (AP)—The pro-Wadist newspaper Al Misri quoted custodians of ex-King Farouk's holdings today as saying the exiled Egyptian monarch owns about \$25,830,000—worth of property abroad and needs no financial aid from Egypt.

The amount of cash Farouk may have on deposit outside Egypt is not known but it has been estimated as high as one million pounds (\$2,870,000).

Farouk told newsmen after he arrived on the Isle of Capri to be a comparatively poor man. He said he had not taken a fortune out of Egypt and had no fortune stored up outside his native land.

## Briefly Told

Dog Bites Child—Richard Dubord, six, of 411 South Ninth St., was bitten Tuesday on the left leg by a dog owned by Mrs. Art Sjoberg, 418 South Eighth St., it has been reported to police.

Meeting Place Changed—The meeting of the Woman's Department of the Reorganized Church of Jesus Christ of Latter Day Saints will be held at 8 this evening at the home of Mrs. Merle Hartman, 1st Ave. S., Escanaba, instead of at the home of Mrs. Rex Stowe in Gladstone.

Motorist Fined—Thomas Delich, 40, of 1624 Sheridan Rd., yesterday pleaded guilty in Justice Henry Ranquette's court to charges of leaving the scene of an accident and failing to report an accident and was fined \$10 and costs of \$5. Escanaba police arrested Delich after tracing his car as the one that struck and damaged a tree in Ludington Park near the lighthouse Monday night.

## Business Of UN May Not Stop For U. S. Elections

By FRANCIS W. CARPENTER UNITED NATIONS, N. Y. (AP)—An increasing number of U. N. delegates are expressing determination to carry on their international business as usual in the heart of New York City regardless of the heat of the U. S. presidential campaign.

It is fast becoming a sore subject to mention to the average U. N. delegate that American politics may have an effect on the U. N. meetings. The seventh General Assembly, originally scheduled to convene Sept. 16, was postponed weeks ago until Oct. 14 partly because some U. N. quarters feared that business could not be done until the United States decided on its next president.

Reaction to that move has been snowballing every since. The U. N. Secretariat now is polling the membership to find out if members want to postpone important policy debates until after the U. S. elections.

The guessing in U. N. quarters is that the decision will be to go ahead with the debate and not wait on American politics. The result may be known Friday.

## Ballots For Those In Service Will Be Received Here Soon

Relatives of men and women in military service of the United States should apply now for absentee voters ballots to be mailed to their kin in the armed forces, so they may vote in the Nov. 4 election.

Escanaba City Clerk George Harvey today said that absentee voters ballots will soon be received at his office, and they will be mailed to persons in service immediately if the necessary application is made.

Eligible to vote are all men and women in the armed forces who are 21 years of age. It is not required that they be registered here as voters.

Application for absent voters ballots may be made for them by parents, brothers, sisters, wife or husband. The applications are received at the office of the city clerk.

# Steel Strike Cuts Output By 555,000 Cars And Trucks

By DAVID WILKIE  
(Auto Editor)

DETROIT (AP)—The recent steel strike, according to authoritative industry sources, cost the auto industry approximately 555,000 cars and trucks.

These are vehicles that might have been produced had there been no interruption to auto assembly lines. The auto makers, with definite output schedules for 1952 model assemblies, figure that but for the steel strike they would have maintained a weekly output of around 120,000 cars and trucks right through to the end of the model year.

**New Models Coming**  
Some industry analysts challenge this assumption, saying demand right now doesn't justify it; they add that even with the curtailed output resulting from the steel shutdowns field stocks of unsold cars at the year's end will be pretty close to average volume.

It begins to appear now that most new model cars will come out as originally scheduled. That means some 1952 model production may have to be sacrificed. The industry can make up some of the unit loss resulting from the steel strike, but it cannot make up the more than half a million vehicle loss, without seriously delaying new model introductions.

Some of the car companies probably don't want to make up all the loss. Some orders have accumulated, but the volume isn't nearly as great as was predicted at the start of the steel strike.

The 1952 and 1953 model cars that will come from the assembly lines during the remainder of the year conceivably could boost the field stock total to close to 400,000 units. The dealers haven't had that many new cars on hand or enroute from the factories for more than a year.

**No Shortage**  
But that total represents approximately a single month's requirements and is regarded by the car manufacturer as a normal inventory. Few industry analysts want to say production and sales in the automobile business is getting back to a normal basis.

They do know that apprehension about a possible new car shortage didn't develop during the steel strike and doesn't exist anywhere today. In many instances delivery delays result from customer insistence on certain colors and body style.

If the most recent field surveys correctly appraised the market for new cars, virtually all the order backlog resulting from the steel strike will be cleaned up within a few weeks—probably before mid-September.

**Nothing Sacred**  
INDIANAPOLIS (AP)—There's no place a man can hide anything these days. Fred Parker, 85, told police someone stole a paper sack of money he pinned to his artificial left leg before going to sleep in a rooming house.

## Isabella

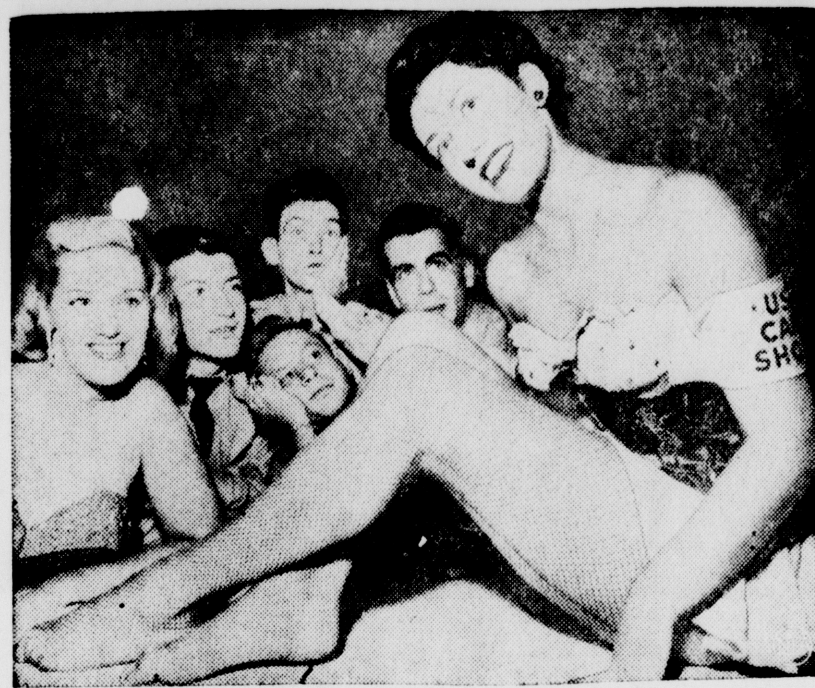

Mr. and Mrs. James Bush and three sons, of Kenosha, Wis., are visiting at the home of Mrs. Bush's mother, Mrs. Rose Nepper.

**Honor Pastor**  
The Rev. James Almquist, assistant to the Rev. G. A. Herbert, was honored at a gathering Sunday afternoon at Bethany Lutheran church. Members of the parish served refreshments in the church parlors and presented Rev. Almquist with a gift. Mrs. Nick Bonifas made the presentation. Rev. Almquist is resuming his studies at Augustana seminary.

# Communists Clear Border Areas For Indochina Invasion

(Editor's note: Moncay . . . Port Wallut. Likely you've never heard of these little known cities in North-east Indochina, but all of them some day may be front page names in the news. All of them are on the logical "invasion route" for the Chinese Communists if they eventually move in on Indochina's six-year war. Veteran AP correspondent Larry Allen went right up to the Red China border for his latest closeup look at the French Union forces defending the Indochina bastion against the Communist tide in Asia. Here is his report of the situation on this explosive frontier.)

By LARRY ALLEN

MONCAY, French Indochina. China Frontier — Communist China is stripping all areas bordering on French-held sections of Indochina of the civilian population and moving them far inland.

In the city of Tong Hing, directly across the International River from Moncay, there are less than 2,000 Chinese. Three months ago there were 30,000 or more. Once a bustling, thriving city, Tong Hing today is silent and death-like.

From the Moncay side of the International River, one can see only a handful of Chinese washing clothes or just standing on the bank and gazing wistfully at Moncay.

## Soldiers Stand By

They do not do this alone. There are always Red-starred Chinese

Communist soldiers standing by, keeping a close watch to prevent any Chinese from trying to flee to the Moncay side.

Moncay, in the extreme north-eastern tip of Indochina, is the only French-held town that borders directly on Red China.

The mass transfer of Chinese civilians from Tong Hing and surrounding areas into Kwangtung Province has aroused speculation that the Chinese Communists might want all border areas cleared in preparation for military action against Indochina to help the Communist-led Vietminh in their war against the French Union forces.

That still might be the eventual objective, but intelligence reports at the moment indicate the Chinese Communists are trying to round up all available manpower for work in factories and on farms in China's interior.

## Bridge Entrance Blocked

Another big aim obviously is to halt the flight of Chinese into Northeastern Indochina, which is populated mainly by the pro-French, minority group called the Nungs. Chinese refugees have been reaching Nung territory on foot through the hills and mountain passes and by fishing boats in the Gulf of Tonkin.

The Chinese Communists had a full division concentrated around or in Tong Hing four months ago. Now there appears to be only a small garrison. The Communists recently lowered a steel gate

closing their entrance to the bridge over the International River.

That effectively put an end to the small trading which used to pass daily between Tong Hing and Moncay.

Now the Chinese, on the Tong Hing side, and the pro-French Nung soldiers on the Moncay side, have nothing to do but just look at each other all day long, ever alert for any hostile move.

## Front Page News?

Moncay may someday be a front page news name.

It is on a logical "invasion route" for the Chinese Communists if they eventually step in to aid the forces of Ho Chi Minh in the six-year-long bitter war.

Moncay lies 100 miles northeast of Haiphong, one of the chief ports for the unloading of war equipment and supplies sent by the United States to assist the French Union forces.

Moncay is the heart of Nung territory, and the job of defending it rests primarily with the Nungs themselves.

## No Relaxing

These tall, sturdy people have thousands of well-trained soldiers here under the command of Lt. Col. Vong-a-sang. A Nung himself, he holds his rank in the French armed forces. Only a comparative handful of French Army or Navy officers are in Moncay to act in a liaison capacity.

The Nungs are autonomous. They hold allegiance directly to Bao Dai, Viet Namese chief of state, and their government thus is separate, in effect, from that of the government of Viet Nam.

The Nungs generally do not think that the Chinese Communists are going to send land or air forces into Indochina but the order of the day in Moncay is unrelaxed alertness.

**BITTER WATER, BITTER WAR** — In Indo-China's "Forgotten War," French soldier Dan Quan scoops up a handful of muddy, rice paddy water to quench his thirst during bitter fighting. His battalion moved through the rice paddy during "Operation Bamboo."

## New Hollywood Film Praised At Festival

VENICE, Italy (AP)—"Phone Call From a Stranger," one of Hollywood's entries at the International Film Festival here, got a warm reception last night. Many Italian critics acclaimed it the best film

presented so far in this year's competition. The movie stars Bette Davis. Others in the cast include Shelley Winters, Gary Merrill, Keenan Wynn and Craig Stevens.

## Dr. Ostrander, Now Retired, Returns To Grand Marais

GRAND MARAIS—Dr. and Mrs. Forrest Ostrander are making Grand Marais their home after an absence of several years. Following his graduation from Grand Marais high school, Mr. Ostrander worked as a druggist at Calumet. He then attended Wayne University, interned at Providence hospital and resided at Herman Kiefer. Following that he served as Health officer at Lansing until commissioned into the Army in January of 1918.

During his years in the Army he served in the following hospitals: Letterman General hospital in San Francisco, Barnes General, Vancouver, Wash., Fitzsimons T. B. hospital and Brook General hospital in San Antonio, Gorgas hospital in Panama. During the Second World War he was stationed in the Philippines and Panama, Cairo, Egypt and Turan, Iran. Following the war he served as chief of the Medical Service and Professional Service at Crile hospital, Cleveland, Percy Jones, Battle Creek. He retired from the Army August 31, 1949 to head Mt. Alto Sanitarium, South Mountain, Pa.

Dr. Ostrander is a member of the American College of Physicians, Fellow of the American College of Chest Physicians, Diplomat of the American Board of International Medicine. He also holds the Army Commendation Ribbon and the Legion of Merit.

## Wail Of Ram's Horn Heard As Israeli Fight Evil Spirits

By ERIC GOTTGETREU

JERUSALEM (AP)—The Shofar (Hebrew or ram's horn) was sounded at a number of synagogues in Jerusalem this week to drive away what religious-orthodox Jews here regard as "the evil spirit of deadly sin and danger."

The Shofar's wail, the reciting of psalms, prayers, fast and protest—all these are used to demonstrate opposition to the present Israel state law forcing women to do two years military service, with exemptions to conscientious objectors only.

### Procession In Holy City

About a thousand demonstrators walked solemnly through the cobbled, narrow lanes of the eastern quarters of the Holy City. The procession was led by a rabbi carrying the Tora (the parchment scroll of the five books of Moses) which contains passages considered to restrict military service to men.

Apart from this, leaders of orthodox Jewry here think the morale of soldier girls might be endangered by army service.

The Israel Army Law, passed by a parliamentary majority after the establishment of the state four years ago, prescribes military service for girls 18-20. A year ago, the law was amended so in certain cases women can be exempted on religious grounds. To avoid abuse, special exemption committees were set up. But in principle, Prime Minister David Ben-Gurion and most of the Liberal and Socialist deputies in Parliament say even religious-observant women should be conscripted to some other national service—at least in farms, as nurses in hospitals, etc.

Israel's orthodox Jews estimated

at a quarter of the million Jews living in the land of the Bible—oppose this. The holy law, they say, should be applied in respect to every Jew and Jewess as it was not given to Moses for the use of observant Jews only.

### Equal Duties Upheld

Rejecting any possible compromise on this issue, these Jews are rallying their forces to intensify the struggle against women soldiering.

Two orthodox leaders, Rabbi Frank and Rabbi Bengis, have published a joint appeal to young Jewish women to refuse all army service. At a mass meeting in the great synagogue in Tel Aviv, Rabbi Brancha turned to the women's gallery, repeated this appeal and exclaimed: "It is your duty to fill the prisons and not the barracks."

Despite all this, the present composition of the population makes unlikely an absolute reversal or the abolition of the women's service system. Liberal spokesmen say, with all due respect to the religious heritage of the Jewish people, most men and women in Israel today are not only for equal rights but also for equal duties.

### Crime Has Lull

NEW YORK (AP)—A unit of the American Bar Association says leaders of organized crime—cowed temporarily by investigations and prosecutions—are ready to break out in a new rash of racketeering throughout the nation.

The association's Commission on Organized Crime said in a report yesterday that there is only a temporary lull in organized crime.

## Taft Influence Felt In Nevada

RENO (AP)—McCarran, Eisenhower and Taft influences clash in Nevada's primary election to select U. S. House and Senate nominees today.

The incumbents, Republican Sen. George Malone and Democratic Rep. Walter Baring, are considered virtually assured of renomination. Only about 50,000 of Nevada's 93,000 registered voters are expected to ballot since no state offices are at stake.

The veteran Democratic sen. Pat McCarran is supporting Alan Bible, 42, Reno attorney and former state attorney general, for his party's senatorial nomination. The other Democratic candidate is Tom Mechling, 31, a Washington, D. C., news writer until last winter. He has blasted at what he labels McCarran's "dictatorial control of Nevada politics."

Malone's rival on the GOP ticket is Lawrence Ebert, a Winnemucca

oil station owner expected to offer only token opposition.

Chief Republican contenders for Nevada's lone House seat are Clifton Young, 30, a Reno attorney who boasts he was one of Gen. Dwight Eisenhower's earliest boosters for the presidency, and Sam Arentz, 39, who supported Sen. Robert A. Taft of Ohio for the presidential nomination.

Two other GOP candidates, Owen Woodruff of Boulder City and Silas O. Turner of Las Vegas, have done little campaigning.

Baring's fore for the Democratic nomination is Simon Conwell, who has been a candidate for various offices the past decade, but hasn't campaigned actively.

### Many Foreigners In Indian Service Arms

NEW DELHI (AP)—A total of 660 foreigners, mainly British, are serving in various capacities in India's civil and military services, an official spokesman said in Parliament.

Most of them are under contract for short periods and will leave when sufficiently-trained Indian replacements can be obtained.

## New Ears Made From Kneecaps

By ALTON L. BLAKESLEE  
Associated Press Science Editor  
CHICAGO (AP)—New ears made from kneecaps were described today to the International College of Surgeons.

The ear is fashioned around a piece of cartilage, shaped like a half-moon, taken from a joint in the knee. It supplies a natural half-moon shape for the ear.

The knee cartilage is obtained from knees lost through amputations, or taken during surgery to fix "trick" knees.

The cartilage is quick-frozen and kept in a bone bank until the plastic surgeon needs it to build a near ear to replace one lost by accident, or to give ears to children born without them.

Skin is grafted around the cartilage to form the artificial ear.

The cartilage supplies a soft, flexible, normal-feeling ear, said Dr. Leslie H. Backus, University

of Buffalo Medical School. New ears also can be made from rib cartilage, or from things like ivory, rubber or plastics.

None give perfect ears because of difficulties in grafting skin to give all the contours of an ear. The artificial ears are far better

than none. They don't affect hearing, for ability to hear depends upon the inner ear.

About 250,000 beetles have been catalogued in museums, says the National Geographic Society.

The chances are 1 in 3 that your family faces hospital bills this year!

YOU NEVER KNOW when sickness or accident will strike you or someone in your family!

Unexpected hospital and medical bills may embarrass you financially for months . . . and even years ahead.

But you can avoid financial embarrassment, and gain peace of mind by protecting yourself and your family with BLUE CROSS-BLUE SHIELD Health-Care Plans, sponsored by Michigan hospitals and doctors.

These non-profit protection plans have provided benefits of over 222 million dollars in the last 13 years. They are enjoyed by over 2½ million members in Michigan—folks like you—who know that the chances are 1 in 3 that they will face hospital bills in the year ahead.

### What Blue Cross - Blue Shield Do:

BLUE CROSS COMPREHENSIVE GROUP HOSPITAL PLAN covers a broad range of benefits (up to 120 days of care) in any one of over 190 Michigan Blue Cross participating hospitals.

BLUE SHIELD MEDICAL-SURGICAL PLAN provides liberal amounts for stated surgical procedures. It pays toward your doctor's hospital visits in non-surgical cases.

### How to get and keep Blue Cross - Blue Shield Protection:

If your firm employs 5 or more people it may be eligible for the Group Enrollment Plan. Agricultural workers can join through Farm Bureau Discussion Groups or Grange Groups.

### Protection without Problems

There's no red tape with Blue Cross - Blue Shield. Simply show your Blue Cross - Blue Shield membership card to your doctor and hospital admitting clerk. Blue Cross - Blue Shield pay the hospital and doctor directly.

BLUE CROSS-BLUE SHIELD pay more—for more hospital and medical services—for more people!

## Dear Friends:

When I started to write a check for my bill this month, I couldn't help but think how much service it represented.

Friends in Grand Rapids were moving to New Jersey. A call to them made it possible to make arrangements for them to stop here on their way.

I received word that a sister was very ill out in Iowa. Just by lifting my receiver and giving a number in Cedar Rapids, I was in touch with home and assurance that all was coming along fine.

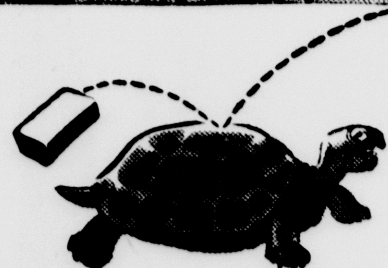

I never cease to marvel how easily we call across the country now without even a wait for the call to go through.

I am not unmindful of the multitude of people who make this service possible, and I wish it were possible to say "thank you" to each one of them.

Sincerely yours,  
Mabel Sykes

## Look-Alikes In News

By GAILE DUGAS  
NEA Woman's Editor

NEW YORK—(NEA)—In the first days of fall, cotton blouses with an autumn look are welcome in nearly any wardrobe. In autumnal colors, expertly tailored and given the additional attraction of being commercially launderable, such blouses are real standbys.

They are equally available for both children and adults so that the small student can, if she likes, have a blouse much like the one her teacher wears. And they're

done in fashion-right color combinations such as toast and gray, yellow and charcoal, red and gray on a white background or blue and gray. The cotton is a fine, woven broadcloth.

From the new Ship 'n' Shore collection, the little girl (left) wears a three-toned blue checked blouse with a convertible collar and action-back pleats.

Her teacher (right) wears a yellow - and - charcoal gray plaid blouse with large buttoned pocket and action-back pleats. Both blouses are budget-priced.

Requests for three recipes were in this morning's mail. They are for Italian pizza pie, chocolate potato cake and mince meat made with green tomatoes and apples. If you have these will you send them in to the Today's Recipe Department, Escanaba Daily Press?

With one request, that for the pizza pie is a recipe for fried summer squash, a tasty addition to cool weather meals.

**Fried Summer Squash**  
Use either yellow crooked necks or the white scalloped squash, both are good. Do not peel. Cut in slices one-half inch thick, dip into beaten egg, then into flour. Fry over hot fire in vegetable shortening until brown and crisp. Salt lightly to taste.

## LUDINGTON BUY-LINES

by Sue Donimus

A SYNONYM is the word you use when you can't spell the word you want. So if you can't spell "Stetson" just say "hat" . . . because in the best dressed circles Stetson and hat are synonymous! Anderson - Bloom proudly announce themselves as a new agency for Stetson hats in Escanaba. I stopped in to look at the long lines of handsome headgear and if I simply drooled just looking at the hats, what would I do if there was a man in one! With such interesting names as "Play Boy", "Open Road", and "Stratoliner", these top quality hats sell for \$10 and \$12.50. Make sure your man stops in at Anderson-Bloom for a famous Stetson for Fall. It will go to his head, and yours!

A FRIEND of mine who likes his summer place to be run in a casual sort of way has named it "Off-hand Manor". If you want to live in a regal manner, you'll buy building supplies from the Stephenson Lumber Company when you begin construction. Even a cottage becomes a palatial manor when its done up the Stephenson Lumber way! Here you'll find every new gimmick in the construction business. Those fancy ROW removable windows, for instance, are there ready for you to install. All manner of quality supplies are found at Stephenson's - the company that watches its manners!

SHE: Whenever I'm in the dumps I buy a hat. He: Oh, is that where you get them? . . . Well, it doesn't require any special mood to appreciate the smooth fall hats at the Mitzi Shop. Jewel tone velvets come in flattering small shapes and also in youthful jockey cap styles. One adaptable chapeau is woven of tiny velvet ribbon with a touch of metallic in the band . . . gray or soft brown in color, and you wear the brim up, down or rolled. The rich velours with feather trim would put any lass in high feather. Metallic and bronze bead trim strike another high fashion note. Prices start at a low \$2.99. Stop at the Mitzi Shop and try on some hats for sighs!

AN important thing for a girl to know is how to keep her youth—away from the rest of the girls! I think the new skirts at the Fair Store will help you keep your youth and hold your man! They're gay — they're plaid — they're full . . . and most important they're orlon and wool! Trust the Fair Store to bring us washable skirts that have the soft texture and beauty of wool. The plaids are in dark green or brown brogue tones with wide leather or belts to cinch in your waist. Another more tailored plaid—Kilton — has three buttons marching down the skirt front. Ask for orlon skirts at the Fair and wash those dry cleaning bills right out of your budget!

THEY say beauty is only skin deep! In that case you can be a real beauty is just a short time because I have the dope for you on Dorothy Gray's annual big savings at Gust Asps. This is the time to take stock of your skin and stock up on cleansing creams. The salon cold cream for normal skins now sells for just \$1.25 (normally \$2.25). The dry skin cleanser and the cleansing cream for oily skins are only \$1.25 each, too! The super bargain is the 1 lb. jar—simply tremendous in size—of any of these creams for only \$2.25. It regularly sells for \$4.00 so it not only helps you save face but save that folding green stuff, too. Gust Asp has a new wrinkle for your old ones—Dorothy Gray creams!

A TISKIT, a taskit. Bold basket-weave wools in green and black or yellow and black are fashioned into smart new storm coats at the Penney Store! Mouton collars and luscious quilted satin linings make these coats a wonderful buy at only \$39.75. Houndstooth wool checks in gray, blue or brown to be worn with or without the belt are another new group for you to admire. Alpaca lined; only \$49.75. Stormy weather? Who cares when you and a Penney storm coat get together!

IF the family car is sometimes a bit temperamental try handling it with gloves! The new driving gloves at Gartner's have a sturdy pigskin palm and are as handsome as they are useful. They are just part of a new shipment of Hansen gloves that arrived this week. I know you'll like the unusual plum shade. Pale Wine, in a smart shorty fabric glove for only \$2.00. Green, black, brown and white also in this style. A nice color choice in some new nylons for fall, too. If you're needing gloves stop in at Gartner's 'cause their Hansen gloves are so nice to have on hand.

PUCKER up, honey! It's easy with the new puckered nylon at Laerman's that comes in kissin' sweet colors. This wonderful new material is 45 inches wide and costs you only \$1.79 a yard. The new shipment includes many dark shades for fall dresses and all shades for blouses. There's brown, navy, both dark and medium green, aqua blue, red, yellow, pink and white. Washes in a jiffy, dries so quick—Laerman's nylon is new slick!

## Packing Lunch Now Much Easier For Homemakers

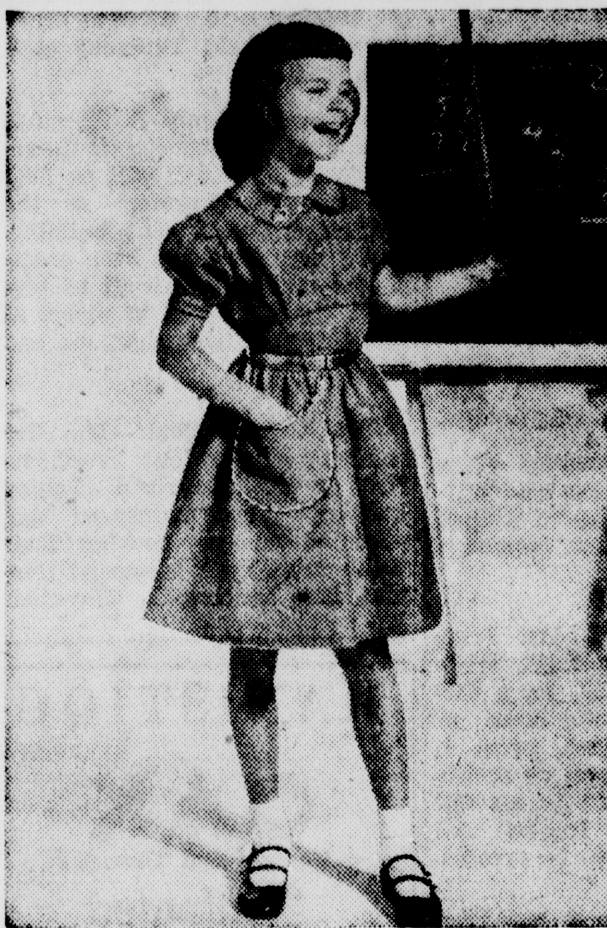

The many accessories now available make the job of lunch packing much easier for the homemaker, says Mary Bodwell, food economist for the agricultural economics department at Michigan State College. Not only do they allow a greater variety of foods to go into the lunch box in packable form but they add color, protect the foods from drying out, are sanitary and are often disposable.

Shaped plastic containers, plastic bags, sandwich bags, plastic, paper or wooden, plates, knives, forks and spoons, waxed cups and paper are available to help lighten the task for the homemaker when members of the family must carry their lunch. Packing the lunch neatly and attractively with these "aids" will do much to preserve freshness and prevent a blend of all the food flavors.

A variety of sandwiches will help to keep the lunch interesting. Varying both the bread and the filling will give an infinite variety so that the lunches will not become tiresome. Try seasoning the sandwich fillings a little more heavily than ordinarily and wrap the salad greens separately. Use day-old bread—so that it will not tear when spread. Spread soft butter or margarine on each slice to prevent fillings from soaking into the bread. Spread all slices of bread in one operation using a spatula. Meat, eggs, cheese and peanut butter are the old standbys for fillings. Try combining these with dressings, seasonings or chopped vegetable for variety, Miss Bodwell suggests.

Fresh fruit or vegetables are excellent lunch box foods and give variety in texture. Wrap them in waxed paper or put in a plastic container to keep them fresh and clean.

Include something sweet—cookies, cup cakes, custards or puddings, doughnuts or candy—to finish the lunch. Be sure to include two napkins so one can be used as a place mat.

## AS WE LIVE

### Certain Moments Call For Emotional Spree

By Elizabeth B. Hurlock, Ph.D.  
Changing one's self is commendable, if the change is an improvement. But a change for the worse should be avoided. This young woman is better off as she is:

(Q) I don't get nervous or excited. I take things as they come, seldom raise my voice when I'm angry, and rarely say unkind things to people. My boss knows I don't get mad and at times she takes advantage of me. I'm trying to be my natural self. Should I change or stay the way I am?

(A) You are lucky to have such a good emotional control. It is certainly more dignified than making a scene and doing things you may later regret.

You should not, however, have such perfect emotional control that you cannot use your emotions when they will be beneficial to you. After all, our emotions are a weapon nature has given us to meet certain emergency situations and we should, therefore, keep them ready for use.

There are times when anger is necessary, or fear, jealousy, and the other emotions. In dealing with your boss you need to use indignation to assure yourself of fair treatment.

Within limits, you should change yourself. Learn to use anger when it is necessary to enable you to get a fair deal. This is a change for the better.

Don't, on the other hand, go overboard and lose all control. That would certainly be a step backwards. An adult who does not know how to control his anger and who flies off the handle like a child in a temper tantrum wins the disapproval and scorn of others.

No one, however, will blame you if you show indignation. You'd be weak and spineless if you allowed your boss or anyone else to take advantage of you.

If you have a problem about family or friend, ask Dr. Hurlock to help you. Write in care of this newspaper.

## Margie Laurich, Frank Praznik Jr., Of Trenary, Wed

Bouquets of white and salmon colored gladiolus decorated the altar of St. Rita's Church in Trenary for the marriage Aug. 30 of Miss Margie Laurich, daughter of Anton Laurich, and Frank Praznik Jr., son of Mr. and Mrs. Frank Praznik Sr. Both families are of Trenary.

The double ring service was solemnized at 10 a. m. by the Rev. Edward Mihelich. The church choir sang the Mass of the Immaculate Conception with Ralph Johnson, organist. At the offertory Mrs. Ed Roberts and Mrs. Alice Casimir sang "Panis Angelicus." The processional and recessional music was by Carlo Rosini.

### White Satin and Lace

The bride wore a gown of white chantilly lace over satin with an off shoulder yoke, long tapering sleeves and a full skirt of nylon net over satin forming a long train. Her three-quarter length veil of silk illusion was edged with lace and caught to a headpiece of seed pearls. She carried a rosary, the bridegroom's gift, and a bouquet of white gladiolus with satin streamers knotted with lilies of the valley. Her jewelry was a necklace which her mother and her three sisters wore on their wedding day.

Mrs. John Mikulich, her sister, who was matron of honor, wore a orchid gown of nylon net over satin and she carried salmon colored lamellias. Her rhinestone necklace was a gift of the bride.

John Mikulich served as best man. Mrs. Praznik wore a green print dress and a corsage of mums and gladiolus.

### Breakfast and Reception

The wedding breakfast for members of the immediate families was served at the home of the bridegroom's parents. Assist-

ing at the reception which followed were Miss Violet Latvala, Mrs. John Mikulich, Mrs. Frank J. Bartol, Mrs. Robert Debelak, Mrs. Louis Praznik, Mrs. Frank Debelak and Mrs. John Bartol. The music was provided by Richard Debelak of Trenary and Jackie Kapla of Hibbing, Minn.

The newlyweds will make their home with the bride's father. The new Mrs. Praznik is a graduate of Trenary High School. Her husband attended the Trenary schools and is a veteran of the Korean service, receiving his discharge recently with the rank of Staff Sergeant.

Out-of-town guests were from Detroit, Milwaukee, Chicago, Hibbing, Forest Lake, Chatham, Skandia, Marquette, Negaunee and Escanaba.

# Cabin At Indian Lake Is Burned

A cabin at Harrison Beach, Indian Lake, owned by Miss Lucille Higgins, of Springfield, Calif., was destroyed by fire early Monday morning.

The blaze, believed to have been caused by lightning, was reported to the Manistique fire department at 12:25 a. m. Monday. The structure was enveloped in flames when the county fire truck, driven by Kenneth Jones, arrived at the scene.

A booster tank was first used and later James laid three lines to Indian Lake and poured water on the fire by use of a suction pump.

The truck returned to Manistique at 2:30 a. m. after soaking the charred cabin remnants with water. At 2:05 p. m. Monday the department was called again to the scene, the fire having blazed up again. Driver of the truck on the second trip was Harry Durno.

Miss Higgins, who is a former local teacher and a voting resident of Hiawatha township, had not lived in her cabin this season. Considerable household material in the cabin also was destroyed.

An estimate of the loss was not available yesterday to Elmer Boal, Manistique fire chief.

A sister of Miss Higgins had resided with her here during the summers. She had a part interest in the building and lot.

# Gun Club Picnic Success Despite Rainy Weather

Despite weather conditions the annual picnic of the Manistique Rifle and Pistol Club Sunday afternoon was an outstanding success, it is reported by Arthur Hough, president.

A total of 23 women participated in pistol competition with Mrs. Lud Hough winning the grand prize. The grand prize was based on one shot by each participant.

Prize winners in five-shot competition were: First, Mrs. Joseph Wood, 49 out of 50; second, Mrs. Charles Spawr, 48 out of 50; third, Mrs. N. H. Modders, 41 out of 50; and Mrs. Catherine Selling, Mrs. Kenton Billings, Mrs. Alan Walter, Mrs. George Ekstrom, Mrs. Hugh Kennedy, Mrs. Ed Olson and Mrs. Lauritz Hough.

Prize winners in boys' pistol events were Ronald Johnson and Nicky Modders.

# Golf Pairings For Thursday Are Announced

Pairings for a two-ball foursome which will precede the annual men's twilight league dinner at the Indian Lake course Thursday night have been announced by E. J. Thompson, club steward.

The dinner will officially close the twilight league play which has been in progress since spring. Three winning teams in the twilight tournament are being feted by the losers at the event.

Two-ball pairings follow:

Vern Dufour-Fred Hahn vs. O. F. Smith-Everett Cookson.  
Jim Carlson-Bud MacDonald vs. Ed Broughton-D. J. Chauvin.  
Carl Carlson-J. L. LeDue vs. Roger Smith-Dan Estren.

## Charge For Infants

TO WHOM IT MAY CONCERN: The practice used at the Ishpeming-Manistique football game of charging for all children of fans regardless of age is something new in the realm of outdoor sports. I am quite sure. I refer to the admission charges made at the East Gate of the A. F. Hall Stadium to fans bringing small children in their own automobiles.

These fans are already paying for the privilege of parking their cars in this designated area so that they may more easily care for their tots and still enjoy Manistique home games. Now they must pay again for these youngsters at the rate of twenty-five cents (\$25) each even though they are so small they do not even understand the game whatsoever. Admissions of twenty-five cents were charged at this game for tots of only 2½ years of age. This is outrageous and a definite detriment to the sport.

A fair and equitable age agreement is understandable; but surely such indiscretion as the insisting of half-fares for 2 and 3 year olds is ridiculous. It is asked that the school board or some other such responsible organization take immediate steps to inform the public—its fans—the logic used in this fee, or better still, reform the procedures to conform with fairness and general admissions anywhere else at similar outdoor events.

# Aged Woman Dies Tuesday

Mrs. Gertrude Alice Masteau, 81, a resident of the Manistique area for 75 years, died yesterday at the Frank Kruel residence, Indian Lake, where she had been housekeeper for the past 16 years.

She was born Jan. 5, 1871, in Baltimore, Md., but came to this vicinity when a small girl.

She is survived by four daughters, Mrs. Frank Gorney, of Los Angeles, Calif., and Mrs. Fred Sovia, Mrs. Joseph Wambach and Mrs. Joseph Gentile, all of Detroit; one son, Clarence Harris, of Manistique; 35 grandchildren and five great grandchildren; and three brothers, Charles, Fred and James Cowman, of Manistique.

Funeral services will be held at 2 p. m. Thursday from the First Methodist Church, with the Rev. Edgar Smith officiating. Burial will take place in Lakeview cemetery under the direction of the Kefauver and Jackson Funeral Home.

# Detroit-To-Miami Airliner Noses Over At Atlanta; 2 Trapped

ATLANTA (AP)—An Eastern Air Lines Constellation, loaded with Labor Day weekend travelers, nosed over at the Municipal Airport here Saturday, pinning two crewmen in the crumpled nose. Fifty passengers and the other crew members were shaken up. The 60-passenger, Detroit-to-Miami plane had made a routine landing and was taxiing toward the loading ramp when the big dual nose-wheels ran off the runway and the ship nosed over sharply. The flight engineer and co-pilot were trapped in the wrecked nose for about two hours before they could be cut free.

The pilot, Capt. Curtis W. Fitts of Miami, Fla., freed himself and assisted in evacuating the passengers.

# Resort Expert Is Coming Here

In order to provide consultant service for persons desiring to improve their resort and tourist facilities, C. A. Gunn, tourist and resort specialist of Michigan State College, will be in Alger and Schoolcraft counties on Thursday and Friday, Sept. 4 and 5. It is announced by Clayton D. Reid, district agricultural agent.

Increasing competition among motels and resorts emphasizes the importance of more attractive buildings and grounds, it is pointed out by Reid.

Gunn has specialized in the design of tourist and resort facilities and his educational services are available free of charge through the Michigan State College Cooperative Extension Service.

"Those of you who are planning to remodel or add to your present accommodations would benefit from Mr. Gunn's counsel and obtain helpful information from the tourist and resort bulletins that have been prepared," the county agent said.

"If you have problems of layout, site development, water supply, sewage disposal, heating, or other relating to tourist and resort buildings, and wish a visit by your county agent and Mr. Gunn, you should contact the county agent's office," Reid said.

Reid's office is located in the basement of the post office building.

# Church Pamphlet Rack Is Stolen

Thieves who made off with a pamphlet rack at St. Francis de Sales Church between 9 p. m. Saturday and 5:30 a. m. Sunday found no money in the rack's collection box, it was reported yesterday by the Rev. F. M. Scheringer, pastor.

Theft of the rack was discovered at 5:30 a. m. Sunday by Dencil Young, church janitor, when he entered the building. Pamphlets from the rack were strewn over the floor.

A collection box built into the central part of the rack had been emptied of funds the night before. It is presumed that the persons who took the rack were after the contents of the box.

The rack, built of steel, was valued at between \$30 and \$40 and the church would like to have it back. City and state police are making an investigation of the theft.

# City Briefs

Yvette Malin, Harold Jackson and Mr. and Mrs. Clifford Jackson Jr. and children, Pat and Bobby, of Oak Park, Ill., and Mr. and Mrs. Stanley Herbst and son, Stanley, of Alwood Park, Ill., left Monday for their home after visiting here with Mr. and Mrs. Clifford Jackson, 412 Arbutus Ave., and other relatives and friends.

Dick McKenzie, son of Mr. and Mrs. William McKenzie, 410 Range St., left Saturday for Detroit, where he will enter the Detroit Business College.

Mr. and Mrs. Alvin Nelson and son, James and Joseph, 324 Range St., spent the weekend touring parts of Canada.

Mr. and Mrs. Carroll Beard and son, Dick, and Andy Chandanais, of Clare, spent several days visiting with Mr. and Mrs. James Chandanais and at the Adam Heinz home.

Mr. and Mrs. Ferris Johnson, Route 1, are the parents of a daughter, born September 1 at the Schoolcraft Memorial Hospital. The infant weighed 7 pounds and 1 ounce.

Mrs. John Martell and Mrs. Flored Dufour and daughter, Diane, and son, Johnny, of Ann Arbor, spent the holiday weekend here at the home of Mr. and Mrs. Roy Lyntz, N. 2nd St.

A son, weighing 7 pounds and 7 ounces, was born September 2 to Mr. and Mrs. Clarence Gerlach, River Road, at the Schoolcraft Memorial Hospital.

Walter Kandel and G. W. Kandel have returned to their home in Barton, Wis., after spending a few days here with their mother, Mrs. Charles Kandel, Deer St.

Mr. and Mrs. Melvin Matchinski, of Engadine, are the parents of a son, weighing 10 pounds and 6 ounces, born September 2 at the Schoolcraft Memorial Hospital.

Mr. and Mrs. Archie Carpenter, 110 N. 5th St., have returned after visiting in Detroit with their son, Jim, and daughter and son-in-law, Mr. and Mrs. Orville LeVigne.

Miss Elize and Jackie Gauthier, 110 N. Mackinac Ave., spent the weekend in Schaffer at the home of their parents, Mr. and Mrs. Paul Gauthier.

For U. N. fliers in Korea, winter is a better season than summer. Skies are clear 10 to 15 days a month and the air is dry, whereas in summer's rainy season only one to three days a month have clear skies.

# 4412 Register At C-C Office

A total of 4,412 guests representing 35 states and six foreign countries registered at the Chamber of Commerce information center between June 14 and Aug. 30, inclusive, it is announced by Fred D. Helman, chamber secretary. Peak registration day was Aug. 20 when 147 persons called at the office and signed their names and addresses to registration cards. Travelers from Michigan topped the registration list with 2,210 persons. Illinois was second with 715, Ohio third with 441, Wisconsin fourth with 270, and Indiana fifth with 240.

A total of 189 visitors from Canada registered during the summer and there was one each from Paris, France; Madras, India; Calcutta, India; Damascus, Syria; Ireland, and Banffshire, Scotland.

## BAD LAND

The 5200 square miles of eroding silt, clay, and dust, known as the Badlands of South Dakota, received their name from the Indians, who called them Mako Sica. This was translated into Mauvais Terres by early French trappers, the literal translation of which is Bad Lands, the name retained by the first American settlers.

## SUPERSTITION

Certain Arabs believe that evil overtakes a girl who, after her marriage, ever again sets eyes on her mother, according to the Encyclopedia Britannica.

# OLDER FOLKS with ITCHING SKIN

For the nagging, maddening, persistent itch of dry skin, so common to folks past middle age, Resinol Ointment is a special, soothing relief. # Attention, Bowlers

We may not have been able to contact all bowlers and teams interested in bowling on our alleys, but if anyone, or any team, would like to bowl they will be welcome.

We can use individual bowlers, both men and women, and new teams can be placed.

Over \$710 was paid out in the men's league last year.

If anyone would care to sponsor a team, we have some teams already entered who desire sponsors.

For a fall and winter of real and inexpensive enjoyment, plan on bowling on a team at

# Housework Easy Without Nagging Backache

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause passing in nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

## Park Chess Players Given Clubhouse

NEW YORK (AP)—Central Park's chess and checker players will move from the park benches into a brand new heated building this fall, thanks to an anonymous donation of \$38,000.

The brick shelter will house 14 game tables with space for 28 game players and a goodly space for kibitzers. The octagonal structure will be 33 feet in diameter.

The park's several hundred chess and checker enthusiasts of all ages have played outdoors in all kinds of weather since an old rustic wooden building burned down a number of years ago.

## In This Corner

With Roy Crandall

Local football will grab the sports spotlight this weekend. Escanaba area fans are eagerly waiting the unveiling of high school clubs. Weekend openers hereabouts will see Escanaba in a home stand against Sault Ste. Marie, St. Joe traveling to Gladstone and Bark River host to Crystal Falls—all on Saturday. Fans will find the sport little changed from last season as far as rules are concerned. Rules meetings in the U. P. last week brought out a few minor changes, which are as follows:

Coaches box with both benches on same side of field—If it is necessary to have both benches on the same side of the field, each coaching box is to extend from the 50 to 20 yard lines.

Cover of ball used—This note provides that by mutual consent, or by conference or league adoption, rubber-covered balls may be used in interscholastic games.

Color and marking of ball beginning with 1953 season—Attention is called to this change to become effective with the beginning of the 1953 season. Beginning in 1953, white and other artificially colored balls will be eliminated except by team agreement and the tan ball with one stripe at each end of the lace will be legalized for day games.

Clipping—The right to charge into the back of an opponent during close line play is not intended to continue after the initial line charge has ceased and the position of the runner is established.

Substitutions—Essentially, it means that a play must ensue after a substitute legally enters the game and before he may be removed by the coach. The intent of the change this year is to eliminate the possibility of communication and "messenger boy service" between the coach and players on the field without a play having occurred.

Exception to taking ball at spot of first touching—The right of player to take the ball at a spot of first touching is cancelled if a player secures possession and thereafter commits a foul.

Fair catch—If catch was made by a player, the right to block or tackle him depends on whether the kickers had a reasonable opportunity to know that a signal had been given. It should be understood that after the fair catch signal has been given, no member of the receiving team may advance the ball.

Fouls during try-for-point—A foul (or fouls) during a try-for-point is administered as a part of the try-for-point and is not paired with a dead ball foul to make a double or multiple foul.

HEAVY SCRIMMAGE ACTION — Coach Joe Milokna is running his new Eskymo grid charges through heavy practice sessions this week in preparation for the home opener against Sault Ste. Marie Saturday afternoon at 2. Milokna will be making his debut as Escanaba High School

mentor. He coached at Kingsford last season. With assistant coach Burt Gustafson, Milokna has been rebuilding from last year's team which lost heavily through graduation. (Daily Press Photo)

## Banquet Tonight Will Cap Successful S-Ball Season

One of Escanaba's most successful softball seasons in history will close with the annual City Association banquet this evening at 8 at the Dells.

George Grenholm, long associated with the sport here, will cap the banquet program as main speaker. Jim Coon is chairman of the banquet committee.

Honored at the banquet will be Escanaba's Upper Peninsula Class A champions, the Dells, which topped top honors in the annual city tournament.

White Birch, champions of the

Escanaba American League, will also draw honors as will Westby's Service, National League champions of the city tournament.

Trophies will be presented to the championship clubs. In addition to the banquet program, a financial report will be made by John McCarthy, Association treasurer. District and Class A U. P. tournaments held here this season added considerably to the Association's financial standings.

Some 200 softball players and followers are expected to attend the banquet.

Election of officers for the 1953 season will be held. Current officers are: Cliff Beaudin Jr., president; Les Peterson, vice president; Francis Greenier, secretary; and John McCarthy, treasurer. On the board of control are Ted Baldwin, chairman, Jens Jensen and Steve Rodman.

GLADSTONE CHAMP — Dr. Byron H. (Bob) Skellenger, left, 1952 Gladstone Golf Club champion, stands above with runnerup Tom LaLonde following the title match Monday. Skellenger captured the club championship by defeating LaLonde, Gladstone High School star, 2 and 1. (Daily Press Photo)

## Bobby Layne Leads Lions To 33-17 Win Over Giants

By HARRY STAPLER

DETROIT (AP)—After triggering the Detroit Lions yard-splintering offense to a 33-17 victory over the New York Giants, quarterback Bobby Layne is ready to take on the Cleveland Browns.

Every man is entitled to his bad moments and the blond Texan had a few of them last night before 36,853 fans in a National Football League exhibition game here in Briggs Stadium.

Layne failed to connect on seven consecutive passes in the first half—something of a record for him. But with the Lions behind 10-0, Bobby pitched a 40-yard pass to Doak Walker and that set up a 35-yard field goal by Pat Harder just before the half ended.

## Tigers Begin Calling Up Minor League Stars

DETROIT (AP)—General Manager Charlie Gehringer's plan for restocking his last place Detroit Tigers will start with the callup of six minor league players early this month.

Of the six, shortstop Harvey Kuenn and outfielder John Bubba Phillips will bring the brightest reputations and both will probably appear in the starting lineup quickly.

The 22-year-old Kuenn, who is hitting .340 at Davenport, was signed for a \$55,000 bonus after his graduation from the University of Wisconsin this year.

Phillips, also 22, is a .289 hitter at Buffalo and one of the speediest outfielders in the International League.

Gehringer, in announcing his plans, said the Tigers also would get a September look at:

Outfielder Shortstop Bill Tuttle, 21, hitting .319 at Buffalo; Outfielder Russ Sullivan, 26, hitting .310 at Williamsport; Outfielder Carl Linhart, 22, used only sparingly at Williamsport since his return from the Army; and Pitcher William (Bud) Black, 20 who has won 11 and lost 8 at San Antonio.

The Tigers called up Linhart yesterday.

Kuenn is expected to report at Briggs Stadium in time to play in Saturday's game against the Chicago White Sox.

Phillips will stay at Buffalo until the International League club finishes its season Sept. 7.

two years had never been scored on so frequently in league play during those seasons.

**Browns Next**  
 Layne and his teammates face the Browns at Syracuse, N. Y., Saturday night in another exhibition contest. The Browns are also unbeaten.

The Lions got their last touchdown late in the fourth period after Jack Christiansen intercepted a pass and ran to the Giants' two-yard line. Harder plunged over. Walker converted all four touchdowns.

For the Giants Chuck Conerly passed nine yards to End Kelley Mote for a second half touchdown and Fullback Eddie Price bulled one foot in the fourth period for a touchdown. Ray Poole converted twice and booted a 26-yard first period field goal.

## Lots Of Shoes To Fill On Spartan Grid Squad

EAST LANSING (AP)—Coach Biggie Munn pointed to a line of empty shoes during yesterday's press preview of the Michigan State football team.

"That's our problem," he stated flatly. "Our big job this fall will be to try to fill those empty shoes." "As far as the offensive line goes," Munn said, "We're starting out from scratch. You can't lose your entire offensive line without it hurting."

Munn said he hoped to be able to start scrimmage before the end of the week.

**Linemen New**  
 "We'll have to go slower than usual on the scrimmage this season," he said, "because our linemen aren't as experienced."

Munn and Trainer Jack Heppinstall both agreed that the squad came back from the summer layoff in good physical condition.

Included in the roster were 13 ends, 27 linemen, seven centers, five quarterbacks, six fullbacks and 14 halfbacks. Munn has 26 lettermen returning this year. Fifteen lettermen graduated.

Line Coach Duffy Daugherty said that if he had to field an offensive line tomorrow he would probably start Doug Bobo of Reed City and Ellis Duckett of Flint at end. Gordon Serr of Cornum and Joe Klein at tackle. Dick Tamburo at center and Bob Breniff and Frank Kush at guard.

**Wells Back**  
 "To prove that we've got troubles you want to check and see where those fellows came from," Daugherty said.

"Bobo was a third stringer last year and Duckett was converted to end from about a third string halfback. Serr was a second stringer and Klein played on the defense. Tamburo and Kush both played on the defense and we had to bring Breniff up from the junior varsity."

Even the coaches admit, however, that Michigan State is pretty well off in the backfield. Lettermen returning in the offensive backfield include quarterback Tom Yewic, halfbacks Don McAuliff, Vince Pisano, Billy Wells and Leroy Bolden and fullbacks Dick Panon, Wayne Benson and Evan Slonac.

### Jockey Suspended For Rough Riding

DETROIT (AP)—Howard Craig, second ranking jockey in the nation, was under a 10-day suspension today for rough riding in the third race at Hazel Park Labor Day.

Craig, riding Eternal Goin, was alleged to have cut in on Iberia Boy on the stretch run. Eternal Goin won but was disqualified.

## Wolverine Gridders Open Practice Grind

ANN ARBOR, Mich. (AP)—Michigan starts the twice-daily fall football practice grind today, chiefly concerned about putting a fast coat of polish on a few untired players.

The two-day program will prevail for slightly more than two and a half weeks with once-daily workouts scheduled from then until Sept. 27 and the opener against the highly rated Michigan State Spartans.

In that short space, Coach Bennie Oosterbaan hopes to prepare relatively "green" players to take over the left half and fullback positions.

### Yesterday's Stars

Batting—Rocco Krsnich, White Sox, smashed a ninth-inning triple that scored two runs and gave the Chicago White Sox a 6-5 first-game victory over the Detroit Tigers. The White Sox also won the second game, 7-4.

**BEARS PRACTICE**  
 The Escanaba Bears, champions of regular season play in the Tri County League, will practice tomorrow evening at the city diamond. The Bears will open the title playoff series Sunday with a home stand against the fourth place team in the final standings.

Location of successors to the graduated left half Bill Puteh and Fullback Don Peterson loomed as a huge job.

On the inside track for the half-back job are Detroit's Ted Kress and Don Evans, Chagrin Falls, O. Kress, a junior, has had little game experience, and Evans has had none.

Fred Baer and Dick Balzhiser currently lead candidates for the fullback position. Baer, a sophomore from LaGrange, Ill., impressed as a freshman last year and Balzhiser, a junior, showed some improvement in spring practice.

Veterans are ready for other backfield positions. Ted Topor rated the number one position in the quarterback job he handled last year, with sophomore Duncan McDonald the chief challenger.

### Eaddy Not Out

At right half, Frank Howell, Don Oldham, and Tom Witherspoon were out front.

Defensive strength is expected with linebacker Roger Zatkoff possibly teaming with Topor and halfbacks Dave Tinkham and Oldham with Lowell Perry at safety.

Perry, one of the nation's outstanding offensive ends rated as Michigan's best weapon if a passing left half can be developed.

At the opening session Oosterbaan revealed Don Eaddy, Grand Rapids sophomore halfback, had decided to skip football in favor of studies and other sports.

## Bark River Plays Crystal Falls At Memorial Field

BARK RIVER — Coach Paul Wiinikainen's Bark River-Harris Broncos will open the 1952 football season by entertaining the Crystal Falls Trojans under the Memorial Field lights in Escanaba Saturday night at 8:30.

The site of the game has been

changed from Bark River to Memorial Field because of a scheduled Tri County League baseball playoff game at Bark River Sunday. The Broncos home gridiron is also the Barks baseball diamond. The Broncos will be sporting brand new uniforms for the open-

er. Sparkling blue and gold uniforms and plastic helmets are new this season.

Bark River hopes received a setback this week when it was announced that Joe LaVigne, senior fullback, would be ineligible for football competition. LaVigne transferred to a California high school last year. He returned to enroll at Bark River but his parents have remained in California.

Coach Wiinikainen rates his first 11 as strong but sees little reserve strength on the bench.

He lists the following probable starters for Saturday night:

Wayne Erickson and Harold Charbonneau at ends, Louis Du-bord or Don Viatu at guards, Jim LaVigne at center, Billy Good at quarterback, Jim Greenwood at left half, Florian Bartoszek or Wally Godlewski at right half and Ron DeMars or Dave Kwarciany at fullback.

Likely reserves are Arliss Sha-key and Leonard Lesnieski.

Last season Bark River opened with a 13-0 win over Crystal Falls and won four while losing two during the season.

## Tri County Managers Hold Meeting Tonight

Managers of five Tri County League teams will meet tonight at 8 at Tom Swift's in Bark River to make plans for the annual championship playoff series which will get under way next Sunday.

League play concluded Sunday with three teams tied for third place in the final standings. Escanaba finished first and Bark River second in the standings. Then Hermansville, Perronville and Foster City are tied for the third and fourth places.

League officials have indicated that a flip of a coin may be necessary to determine the third place team. That would leave two teams in contention for the fourth place spot and it is possible that

a playoff game may be arranged before Sunday.

Managers of the five teams involved will decide tonight what means will be taken to break the tie.

The Escanaba Bears are defending league champions. Last year they topped the regular season standings and won the title playoff as well.

First-playoff games Sunday will see Escanaba host to the fourth place team and Bark River host to the third place club.

### Football Briefs

(By The Associated Press)  
**OHIO STATE**—Physical examinations showed left halfback Bernie Skvarka, captain, has a recurrence of an old kidney ailment. Coach Woody Hayes said he may not be able to play this season. Skvarka was counted on to replace Vic Janowicz.

**MINNESOTA**—Paul Giel, star halfback, is loosening up a bad knee injured playing summer baseball. Bo Swieger and Bob Kreiger, both former pros, have been added to the coaching staff as part-time assistants.

**WISCONSIN**—Center Jim Craine and linebacker Gary Messner are on military reserve duty and will be unable to report until next week.

**INDIANA**—Two sophomores halfback James Kamcar of Chicago and guard Lou Zobrosky of South Bend, Ind., have dropped out of school.

**MICHIGAN**—Don Eaddy, Grand Rapids, Mich., sophomore prospect for left half, informed coach Bennie Oosterbaan that he was skipping football to concentrate on his studies and on basketball and baseball.

**NOTRE DAME**—Coach Frank Leahy, greeting about 60 hopefuls, said his only concern at the moment was aiming for the opener with Penn at Philadelphia, Sept. 27.

**MICHIGAN STATE**—Coach Biggie Munn ordered two-day drills to continue until school starts or until players get stale from overwork.

## Baseball Briefs

WASHINGTON (AP)—The one-hitter hurled by Rookie Mike Fornieles of the Senators last night against the A's was the seventh pitched in the American League this season. The score was 5-0. There have been no one-hitters in the National League so far this year.

**CHICAGO** (AP)—Marty Gris-som, a former Detroit Tiger, is taking it out on his old teammates this season. When the curve-balling White Sox right-hander whipped them 7-4 in yesterday's nightcap it was the third time this season he had turned the trick.

**NEW YORK** (AP)—The Boston Red Sox have been shut out 12 times this season. They were blanked twice yesterday by the New York Yankees, 5-0 and 4-0, making it 26 consecutive scoreless innings for the fading Red Sox.

### Eye Injury Forces Fight Postponement

DETROIT (AP)—An eye injury has forced Clarence Henry to withdraw from a fight scheduled at Olympia Stadium Sept. 10 with Archie Moore.

A spokesman for the International Boxing Club said an attempt would be made to find another opponent for Moore.

### FIGHTS LAST NIGHT

Miami Beach, Fla.—Chico Velaz, 147, Stamford, Conn., outpointed Art Davis, 150, Miami, Fla., 10.  
 Newark, N. J.—Jimmy Champagne, 147½, Philadelphia, outpointed Ray Alston, 146½, Trenton, N. J., 8.  
 Los Angeles—Ramon Fuentes, 145, Los Angeles, knocked out Gerald Labroli, 144, Chicago, 6.

Howard M. Grounder built the first American air raid shelter in 1940 at Fleetwood, Pa. The concrete structure with 18-inch walls had movable bunks accommodating six people.

## Detroit Heading For One-Run Loss Record

CLEVELAND (AP)—The Detroit Tigers will take on the Cleveland Indians tonight in the opener of a two-game series with Prince Hal Newhouse striving to reach his goal of 200 victories as a major league pitcher.

Newhouse needs only two more victories to achieve the 200 mark. But Newhouse, with 7 wins and 8 losses this season will be up against tough opposition with Bob Feller, 9-12 on the mound for the Indians.

The Bengals sank deeper in the American League basement by dropping a doubleheader to the White Sox in Chicago yesterday. But they are still on their way to equal an American League record of suffering the most defeats by one run. They lost the opener to Chicago 6-5. Philadelphia set the record in 1945 with 38 such losses and finished eighth in the league.

Detroit now has lost 33 games by one run and has 22 games to play.

The White Sox took the nightcap 7-4 with a 12 hit blast off Billy Hoelt. The Tigers got off

### Escanaba Golf Club Consolation Winners Listed By Flights

Consolation winners in the Escanaba Golf Club championship tournament concluded Labor Day are as follows:

Second flight, Tom Bourke defeated Everett Cole; third flight, Pat Dooley defeated Gus Maycunich; fourth flight, Roy Jensen defeated Mac Council; fifth flight, Don Estebo defeated Bill Henderson.

### Report Tennessee's Grid Coach To Quit

NASHVILLE (AP)—The Nashville Tennessean reported today that Gen. Bob Neyland will resign as athletic director at the University of Tennessee this season, but will remain head coach.

Raymond Johnson, sports editor of the morning paper, reported from Knoxville that an old ailment which has never been positively diagnosed, forced the general to leave the practice field Monday.

to a brave start on Jim Delsing's bases-loaded single in the first inning that put them ahead 1-0. But the Sox came back in their half of the first with three runs on an error by Fred Hatfield, singles by Nellie Fox and Eddie Robinson and Sam Mele's double.

**Dropo Homers**  
 The Tigers scored another run in the second. Then in the eighth, Walt Dropo hit his 23rd homer with Hatfield aboard.

The Sox scored twice in the third with the help of Minnie Minoso's 12th homer. They added another pair of runs in the eighth with a double, sacrifice, single and a beat-out punt.

Chicago took the opener thanks to Rocco Krsnich's two-run triple in the ninth.

Krsnich's blow came off Virgil Trucks just after he had replaced Hal White, who was charged with the loss.

The Tigers scored all their runs in the third, including Catcher Matt Batts' two-run homer. The Sox had gone ahead in the second on Jim Rivera's two-run homer off starter Ted Gray.

## Blackwell Wins For Yanks

By JOE REICHLER  
AP Sports Writer

The New York Yankees received a quick dividend on their \$40,000 investment in Ewell Blackwell.

Five days after the purchase of the former National League star from the Cincinnati Reds, the Yankees last night sent Blackwell to the mound against the Boston Red Sox. The long, lean right-hander responded with a scoreless

### The Umpire

By BEANS REARDON  
24 Years in National League

Written for NEA Service

QUESTION: How many big-league pennants did Billy Southworth win?

ANSWER: The clever little manager copped National League flags at St. Louis (1942-43-44) and Boston (1948).

Q. There's a runner on first. Batter hits fly to short right. Runner holds up between first and second. Batter comes around first, pulls up behind him. Ball falls safely. Outfielder, in throwing to first, throws ball into stands. How many bases are the runners entitled to on an overthrow?

A. Since no runner, when the ball is dead, may advance beyond the base to which he is entitled, the runner originally on first goes to third base and the batter is held at second base.

Q. When did Babe Ruth first break the home-run record?

A. In 1919, with 29.

Q. Who were the last two players to be elected to baseball's Hall of Fame?

A. Paul Waner and Harry Heilmann. Both were elected this year.

Q. What salary does Baseball Commissioner Ford Frick's contract call for?

A. The former National League president was hired for a seven-year term at \$65,000 annually.

Q. How many times did the Yankees beat the Indians in New York last year?

A. The World Champions beat Cleveland 10 out of 11 at home.

Q. Who is the oldest ex-major leaguer still alive?

A. Arlie Latham star third baseman for the old St. Louis Browns of the American Association and the Cincinnati Reds from 1883 through 1895, is 93, can be found in the Yankee Stadium press box almost any day the club is in town.

Q. What is the all-time single-game attendance record for Double AA baseball?

A. On Apr. 11, 1950, Dallas of the Texas League drew 53,578.

Q. What big-league pitchers won 20 or more games hurling for second division teams in 1951?

A. The Pirates' Murry Dickson, Browns' Ned Garver and Phillies' Robin Roberts.

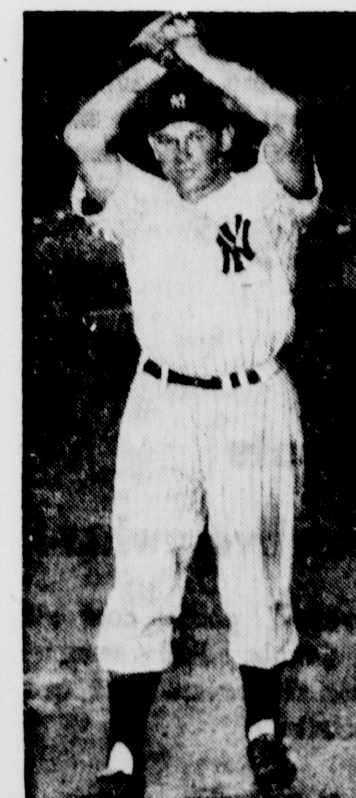

### Maple Leafs To Talk Trades At Meeting

TORONTO (P)—Managing Director Conn Smythe of the Toronto Maple Leafs will be talking trades at the semi-annual meeting of the National Hockey League's board of directors in Chicago Sept. 11.

Rumors named Chicago Goalie Harry Lumley as one he'd like to get.

Captain Ted Kennedy became one of the few players to sign with the Leafs so far this year when he came to terms today.

Napoleon once contemplated residence in the United States. The emperor is quoted in the National Geographic Magazine as saying to his brother Joseph: "If we are forced to flee to America, I should choose a place between Philadelphia and New York and on the Delaware River, in order to get news by packet."

BIG THREE — The Yankees again depend on their Big Three in the fierce run down the American League stretch. They are, left to right,

five-inning performance to rack up his first American League triumph.

Blackie was not the overpowering pitcher he had been in his days as a big winner with the Reds, but he looked quite capable before bowing out for a pinch hitter. He permitted four singles, fanned four and walked three before retiring because of weariness and the humidity.

### Four In Fifth

It was in the fifth, however, when the Yankees ganged up on Boston starter Sid Hudson for all their runs to win the nightcap, 4-0, after rookie Tommy Gorman had hurled an eight-hit 5-0 shutout over the Red Sox in the afternoon portion of the day-night doubleheader.

The two triumphs ran the Yankees' winning streak to five and increased their first-place margin

over the idle Cleveland Indians to 3½ games.

Brooklyn's Dodgers, the National League leaders, dropped a pair to Philadelphia's Phillies, 8-2 and 9-3, and were lucky to get out of the City of Brotherly Love in one piece. Two dozen Philadelphia hits plus splendid pitching by right-handers Robin Roberts and Karl Drews cut the Dodgers' first-place lead over the idle New York Giants to eight games.

Chicago's White Sox climbed in to fourth place, vanquishing the Detroit Tigers twice, 6-5 and 7-4. Rocco Krsnich's two-run triple in the ninth won the opener. Marv Grissom won his 11th in the nightcap.

### One-Hit Debut

Washington's Senators, although held to three hits in each game, won both ends of a two-night twin bill from Philadelphia, 3-2 in 10 innings and 5-0, to dump the Athletics into fifth place, only a half game in front of the Nats.

Mike Fournieles, 20-year-old Cuban right-hander, pitched a one-hit shutout in his major league debut for Washington. A second-inning single by catcher Joe Astor prevented the youngster from becoming the first pitcher in modern times to pitch a no-hitter in his first big league game.

Blackwell received credit for a shutout victory although he needed help from another National League

castoff, Johnny Sain. The ex-Boston Braves' right-hander permitted only one hit in the last four innings.

Blackwell was a tired but happy fellow in the Yankees' clubhouse after the game.

"I lost nine pounds," he said, "but it was worth it. The arm feels fine. I was nervous out there on the mound but that was because I really wanted to win that one. I was bearing down all the time. I became tired after the fourth inning but only because I hadn't pitched since Aug. 9."

### 22 For Roberts

"I'm sure I'll be all right from now on in. I'm ready to take my regular turn."

Manager Stengel wisely sent in a pinch hitter to bat for Blackwell when the Yankees loaded the bases on Hudson in the fifth. Johnny Mize, the pinch swinger, popped out but Mickey Mantle came through with a two-out single that drove in two runs and broke up the scoreless duel. Phil Rizzuto's single sent the other two runs over the plate.

The Dodgers never had a chance as the Phils broke through for six runs in the first three innings of each game. Roberts notched his 22nd win and his fifth over the Brooks in the opener. Drews, another Dodger killer, won his 13th and his fourth over the league leaders in the nightcap.

## New Girl Tennis Star On Horizon

By HUGH FULLERTON JR.

FOREST HILLS, N. Y. (P)—It isn't likely that anyone is going to beat Maureen Connolly in this year's National Tennis Championships—at least not before the finals. But a few of the fans scattered around the West Side Tennis Club already have had a look at the next Connolly.

She is Julie Sampson of San Marino, Calif., the newly crowned national girls champion, who caused some eye-popping and tongue-wagging yesterday by the way she disposed of Japan's woman champion, Sachiko Kamo.

Julie is a tall, thin reddish-haired girl who appears to be at about the same stage of tennis development as Miss Connolly was a year or so ago.

Little Mo went right on through to win the United States and Wimbledon championships. She's favored to repeat this year and she has lost only one game in each of her two matches.

Miss Sampson didn't get started until yesterday because she was busy beating Mary Ann Eilenberger of San Diego for the girls title last week. So she got busy and beat Miss Kamo, 12-10, 6-4, in a first-round match played down on a clubhouse court before few spectators.

Afterwards a tennis official remarked that Julie already plays well enough to be ranked in the first 10 and should have been seeded for this tournament.

The biggest doings in the men's division came in the gathering twilight of a hot day when Straight Clark of Pasadena, Calif., ninth-seeded American and a member of this year's Davis Cup squad, outlasted Denmark's champion, Kurt Nielsen, 6-2, 2-6, 4-6, 6-2, 7-5.

By The Associated Press

TODAY A YEAR AGO—George Flores, Brooklyn welterweight, died of injuries received in a fight with Roger Donoghue, White plains, N. Y.

FIVE YEARS AGO — Bill McCahan of the Philadelphia Athletics hurled a no-hitter against the Washington Senators, winning 3-0. Only one man reached base and that on an error.

TEN YEARS AGO—Louis (Bobo) Newsom, making his debut with the Brooklyn Dodgers, blanked the Cincinnati Reds, 2-0, with only four hits and fanned eight.

TWENTY YEARS AGO—Jimmy Foxx cracked his 50th and 51st home runs and Lefty Grove registered his 22nd triumph as the Philadelphia Athletics defeated the Boston Red Sox.

## Brooklyn Dodgers Rate Tag As Best Fielders

NEW YORK (P)—The Brooklyn Dodgers, seeking to break the major league club fielding record, are also well represented among the individual fielding leaders today.

The pennant-bound Brooks, who boast a .984 defensive mark, contribute third baseman Billy Cox, shortstop Pee Wee Reese, catcher Roy Campanella and outfielders Carl Furillo and Andy Pafko to the National League's list of top men.

If the Dodgers continue their present pace they will eclipse the existing team record of .983, established by the Cleveland Indians in 1947 and again in 1949.

### Cox Tops

Cox heads the third sackers with a .982 average. Willie Jones of the

Roy Campanella PEE WEE REESE

Philadelphia Phillies is second with a .974 slate.

Reese is deadlocked for the shortstop lead with Boston's Johnny Logan at .975.

Campanella holds a slight edge over Del Rice of St. Louis. The burly Negro catcher shows a .995 mark to Rice's .994.

Along with Sid Gordon of Boston, Furillo and Pafko rate as the cream of the National League flycatchers. Gordon's .996 average is only one point better than that compiled by the dodger outfielders.

A pair of Cincinnati players, Ted Kluszewski and Grady Hatton, round out the National League's defensive pace-setters. Kluszewski, with a .994 slate, heads the first baseman and Hatton, a converted third baseman, tops the second sackers at .990.

### Courtney Phenomenal

In the American League, the highlight is Clint Courtney's sparkling .998 mark. The St. Louis Browns' catcher shows only one miscue in 455 chances.

Johnny Lipon of Boston is the front-runner among the shortstops at .980.

New York's Gil McDougald, with 10 bobbles out of 349, is the leader among the third basemen with a .971 average.

Other top men defensively are outfielder Gene Woodling of New York, .995; first baseman Mickey Vernon, Washington and Detroit's Walt Dropo with .993 each, and second sackers Nellie Fox, Chicago, and Bobby Young, St. Louis, deadlocked at .988.

### Rotary Official Will Visit Club

The Rotary Club of Gladstone at its regular meeting next Monday noon will be host to Ralph M. Reece, governor of the 208th District of Rotary International, who is making his annual official visit to each of the fifty-one Rotary clubs in the Upper Peninsula of Michigan and Northern Wisconsin.

He will confer with President O. H. Anderson, Secretary H. J. Brav, directors and committee chairmen at 10 Monday morning. The dinner meeting is to be at 12:15.

Mr. Reece is minister of Centenary Methodist Church in Menominee, Wis., and is a member of the Rotary club in that city. He is one of the 207 district governors who are supervising the activities of some 7,600 Rotary clubs which have a membership of over 360,000 business and professional executives in 83 countries and geographical regions throughout the world.

Wherever Rotary clubs are located, their activities are similar to those of the Rotary club of Gladstone because they are based on the same general objectives—developing better understanding and fellowship among business and professional men, promoting community-betterment undertakings, raising the standards of business and professions and fostering the advancement of good will, understanding and peace among all the peoples of the world.

Each year, this world-wide service organization continues to grow in numbers and in strength. During the past fiscal year, for example, 219 new Rotary clubs were organized in 32 countries of North, South and Central America, Europe, Asia, Africa and the Islands of the Pacific.

### Old Cemetery Found

KHARTOUM (P)—A Christian cemetery dating about 800 A. D., was uncovered by accident in the Gezira district. A sand hill was being dug up to provide building material when a large collection of homes and pottery was uncovered.

First cross-country race, in England in 1876, ended inconclusively because the entire field of runners became lost in Epping Forest.

### CARD OF THANKS

We wish to express our sincere thanks to neighbors, friends and relatives for the assistance and sympathy tendered us at the time of our recent bereavement, the death of our beloved husband and father, Albert Larson, Sr.

Especially are we grateful to those who sent spiritual and floral bouquets, offered autos for the services, the Rev. Fr. Thomas Andary, the choir, the pallbearers and all others who by word or deed assisted us at this time. The memory of these acts always will remain with us.

Signed:

Mrs. Albert Larson, Sr., and family
